

EXPECT 350 VETS AT DISTRICT MEETING

Presence of National Commander Is Attracting Large Crowd to Green Bay

A large number of reservations from Wisconsin legionnaires and auxiliary members are being received for the annual fall conference of the Ninth district of the state legion which will be held Saturday and Sunday, Nov. 12 and 13 at the Northland hotel, Green Bay, according to Fred M. Smith, district commander. The fact that Edward Spafford of New York, national commander of the legion, will make his first appearance in Wisconsin at the conference banquet at 6:30 Saturday evening has swelled the attendance and at least 350 legionnaires and auxiliary members are expected. Commander Spafford was elected at the recent legion convention in Paris.

Legion and auxiliary members from all parts of the state have been invited because of the national commander's visit. In addition to Commander Spafford, Frank J. Schneller, Neenah, state commander; A. A. Peterson, Milwaukee, state adjutant; J. F. Burns, Milwaukee, state service officer; Mrs. Adolph McAuley, Menominee, past national auxiliary vice commander; Mrs. Zella Hilt, state president; Miss Cora Brown, state secretary and others prominent in legion affairs will attend.

Legion posts of the Ninth district, including the Oney Johnston post of this city, are making a membership drive in honor of the national commander, and are attempting to go over the top before Nov. 11.

Mayor James McGillen, a Green Bay legionnaire, will present the district report for Commander Spafford and Schneller at the banquet Saturday night.

OCTOBER CONSTRUCTION IS VALUED AT \$101,000

October was busy for local contractors and builders. A total of 61 permits for work estimated to cost \$101,437 was issued last month by John N. Welland, city building inspector.

Eight of the permits were for residences to cost a total of \$31,500; 10 were for residences and garages to cost \$44,800; 23 for garages to cost \$5,700; and there were 20 permits for miscellaneous types of work to cost \$18,837.

The building inspector made 57 final inspections during the month and attended two meetings of the board of appeals. He investigated 27 complaints.

LEGION SCOUT TROOP REGISTERS FOR YEAR

Troop 4 of the Appleton boy scouts known as the Oney Johnston troop has registered with the national organization for another year, according to announcement made following the regular weekly meeting of the troop at Armory G. Thursday evening.

The scoutmaster, Charles Schroeder, spoke to the boys on Armistice Day Over There. He also showed them a collection of war souvenirs and numerous war pictures.

Boys interested in scouting at St. Joseph church spent Saturday afternoon on a hike under the direction of the scoutmaster, Dr. E. J. Ladner.

The trip was up the river a few miles where they would play games and have lunch. Friday evening the future patrol leaders and their assistants from the St. Joseph troop met with Dr. Ladner in his office and spent several hours working to pass tenderfoot scout exams. Organization of the St. Joseph troop will be completed when the leaders have passed the tests.

WILL PROSECUTE ALL WOOD BLOCK THIEVES

If winter comes, there is one man in the city who will not suffer from the cold. He is the party who filled his cellar with creosoted wood blocks from the storage pile in the city yards on N. Walnut-st.

The street department recently was informed that the pile of blocks had diminished considerably and they were that any cause helping himself to the blocks will be arrested. Although Appleton streets no longer are paved with wood blocks, the supply in the yards is being kept for repair purposes.

300 TRAPPERS SECURE LICENSES FROM CLERK

A total of 300 trappers received licenses this year, according to records at the office of John E. Hantschel, county clerk. This is about 25 more licenses than were issued last year. The 300 trappers received 799 trapping tags to be placed on the traps as compared with only 450 tags issued last year. Clerk Hantschel said he thought there would not be many more trapping licenses issued because most of the trappers had already secured their permits.

BUILDING PERMITS

Permit to build a garage was issued Saturday by the building inspector to John Kersten, 1013 W. Franklin-st.

CLEAR UP A LINGERING COUGH

A lingering irritable cough is not so good. It reveals a weak condition. But that weak condition will quickly yield to the peculiar healing qualities of Foley's Honey and Tar Compound, a true cough remedy of proven medicinal value. From 601 E. 45th-st., Chicago. "A stubborn, lingering cough worried me for weeks, and I tried many remedies, but it quickly yielded to your good Foley's Honey and Tar Compound, as my doctor assured me it would." Always dependable sold everywhere.

MINIATURE MUSICAL COMEDY

LOUISE HOVICK AND THE NEWS JUNE REVUE AT FISHER'S APPL. T. T. T. SATURDAY AND SUNDAY

ADVOCATES REVIVAL OF SCHOOL MAGAZINE

University Journalism Instructor Says It Will Induce Better Writing

Milwaukee—A Two University of Wisconsin journalism instructors talked on high school journalism before the English section of the state teachers convention late Friday.

Miss Helen Patterson advocated the revival of the high school magazine and Prof. Grant M. Hyde discussed teacher aspects of high school journalism.

"More careful writing can be done for the magazine," Miss Patterson explained, "because the students do not have to work against time as do those on the newspaper staff. It is less of a business undertaking, because it is not issued so frequently. Better writing, better editing, better make-up, better art work and better printing can be required for there is a longer time in which to plan and do these things."

The newspaper is a valuable adjunct to high school training in English, Miss Patterson said, because "writing for the newspaper teaches students to express their thoughts quickly and clearly."

"The newspaper and the monthly magazine are a stimulus for the young writers to develop literary ability," Miss Patterson continued. "Because the degree of reader interest in the school is proportional to interest in persons, places, or things, it is easier to make the newspaper a success, but the magazine should not be discarded because its problems are more difficult."

An important part of the high school journalism teacher's job is "to direct study which will train students to read the press intelligently, to discriminate in selecting newspapers, to support the best type of journalism, and to get the greatest personal benefit out of this great institution which plays such a part in American life," Prof. Hyde told the members of the round table on journalistic writing.

"High school work in journalistic writing," he commented, "may aid the profession of journalism in two ways: 1. By sorting over the many aspirants for journalistic careers and sending the best to college.

2. By making future merchants, lawyers, housewives, stenographers, intelligent readers of the newspaper."

135 ATTEND BANQUET FOR LAWRENCE ALUMNI

About 135 persons were present at the Lawrence Alumni banquet Thursday evening at Hotel Republic, Milwaukee. The banquet was held under the auspices of the Milwaukee Lawrence club. Dr. H. M. Wriston, president of Lawrence college, and Dan Harrell, alumni secretary, were the speakers of the evening. Chris Eley, '12, was toastmaster at the banquet.

PUBLIC WORKS BOARD INSPECTS 7 STREETS

Objections to assessments of benefits and damages for grading of seven city streets will be heard by the board of public works at a meeting at 1:30 in the afternoon on Nov. 17. The board viewed the following projects Thursday afternoon: Harbortown from present terminal north to Parkway-blvd; Clark-st from present terminal north to Parkway-blvd; N. Division-st from present terminal at Levee-st north to Parkway-blvd; Madison-st from Fourth to Fifth-st; Union-st from Broadway to Clark-st; Levee-st from Morris-st to Duane-st; Third-st from Duane-st to Story-st.

NOTED EYE SURGEON CONDUCTS CLINIC HERE

Dr. H. V. L. Brown of Chicago, noted eye surgeon, who is a visiting guest of Dr. and Mrs. E. H. Proff, conducted a clinic at St. Elizabeth's hospital Saturday afternoon. Dr. Brown operated on 40 eyes.

Bay's Big 5 Armistice Dance, Fri., Nov. 11. Eagles Hall.

375 PERSONS AIDED BY SALVATION ARMY

Organization Will Commence Drive for \$4,000 Fund on Nov. 14

Three hundred and seventy-five persons in Appleton were helped by the Salvation Army during the year ending Sept. 30, according to the report of Captain and Mrs. Edward Shaw of the local branch of the organization.

Other items under the social activities of the Army show that 945 hours were spent on 1,872 visits. 82 persons were provided with beds, 117 meals other than Christmas dinners were provided, 51 persons were supplied with groceries and milk, three persons given transportation, nine homes provided for children, employment found for men and women in nine instances, and three men paroled from jail to the Salvation Army.

The evangelistic activities of the organization show that 31,435 persons attended 160 open air meetings and 4,435 the 208 indoor meetings. There were 26 conversions. There were 3,120 persons in attendance at 109 young people's meetings. Out of town meetings numbered 90 and 34,800 copies of War Cry, official army paper, were distributed.

The annual Salvation Army drive for funds will be carried on from Nov. 14 to 26. Appleton's quota this year is \$4,000 and Captain Shaw in submitting his annual report thanks Appleton people for their cooperation in the past and hopes they will again give as generously this fall.

The executive committee in charge of the campaign consists of Mayor Albert C. Rule, general chairman; Eric Lundberg, industrial chairman; Mrs. Seymour Gmeiner, woman's honor roll chairman; and L. O. Wiseman, cashier of the First National Bank, treasurer of the campaign fund. The request has been made that all persons wishing to make contributions do so to Mr. Wiseman at the First National bank, Appleton.

RAINBOW VETERANS TO HAVE COTTAGE PARTY

Arrangements are being made for a house warming party to be held by the Rainbow Veterans at their new cottage on Brighton beach. Monday evening, Nov. 14. Although the cottage was finished some time ago and has been in use for some months this will be the first official opening. A duck dinner "with trimmings" will be served by the men. The veterans will entertain their wives. Invitations have been issued to Rainbow Veterans all over the state to attend this meeting. Paul Wilke is chairman of the committee in charge of arrangements.

LEGION COUNTY COUNCIL DISCUSSES DISTRICT MEET

Plans for the annual fall conference of the Ninth district of the American legion at which National Commander Edward Spafford of New York will be the principal speaker, Saturday and Sunday at the Northland hotel Green Bay, occupied most of the evening at a meeting of the Thursday evening at the Grand View hotel, Kaukauna. Routine business and reports occupied the remainder of the meeting. Fifteen legionnaires, representing Kaukauna, Neenah, Appleton, Little Chute, Seymour and Appleton, all of the county posts, attended the session. Appleton legionnaires were C. O. Bietz, commander of Oney Johnston post; Harry Little, immediate past commander, and A. C. Buser, past service officer and secretary of the county council.

COMPLETE BASEMENT OF NEW RYON SCHOOL

The basement and inside walls for the first story of the new grade school at Ryon being constructed by the Hoffman Construction company of this city have been completed, according to information from company officials. Construction work has been held up because of a delay in shipping terra cotta for the building. It is expected that most of the building will be finished before cold weather arrives.

Postpone Luncheon The regular weekly luncheon meeting of the Lions club will not be held Monday noon because of the meeting of Nov. 11, which is Naturalization day. An extensive program is being planned to honor the newly made citizens.

DEMOCRATS! BEWARE IF G. O. P. NOMINATES THIS EASTERN JUDGE

Hartford, Conn. — Back seat drivers, beware! And everybody give three cheers for Supreme Court Justice Curtis. The venerable judge had decreed that, "A passenger in an automobile should sit still and say nothing, because any other course is fraught with danger."

ARRANGE SCHEDULE OF BAND CONCERTS

Seven Monthly Programs Will Be Given by Field Artillery Band

A schedule for the entire winter and spring program of concerts of the 120th Field Artillery band was completed this week by Edward F. Mumm, band conductor. Seven concerts, one each month, will be given from November to June, starting with a concert on Tuesday, Nov. 15. All of the concerts will be played at Lawrence Memorial chapel and soloists for each concert already have been secured. With a definite schedule arranged so far ahead, Mr. Mumm hopes that local lodges and clubs will not set any of the band dates for their important affairs so that both events will be well attended.

The soloists for the opening concert on the schedule, Nov. 15, will be Miss Isabel Wilcox, soprano, former soloist of the band and of the composite Wisconsin American legion band of the Paris convention, and Mrs. Eric Lindberg, local pianist. On Dec. 6 the Nixon quartet, known as one of Wisconsin's finest male quartets, will sing. George Nixon of Appleton is leader of the quartet.

On Jan. 10, Carl McKee, instructor of voice at Lawrence conservatory of music, and his mixed quartet will sing and Orville Thompson will play a clarinet solo. Mr. Thompson, besides being a soloist of the band and the Wisconsin legion band, is a former member of John Philip Sousa's famous military band. On Feb. 7, Professor John Ross Frampton, professor of piano at Lawrence conservatory, and the Appleton mixed choir, led by Professor A. J. Theiss, will be on the program.

On March 6, the band will take part in the School Cantorium of Lawrence conservatory, under the personal direction of Dean Carl J. Waterman.

On April 10, 150 picked voices from Appleton schools, led by Carl McKee, will accompany the band program. On May 8, the final scheduled program, Wisconsin's leading brass quartet, composed of Appleton band members, will play. Members are A. L. Gmeiner, cornetist; Edward Steenis, cornetist; Anson J. Bauer, trombone player; Arthur Demand, trombone player; Stephen C. Rosebush, euphonium soloist of the band, also will play several selections.

BOYS HIKE IN MORNING BUT RETURN FOR GAME

Fifteen boys of the Y. M. C. A., led by Irving Buck, assistant boys' work secretary, took part in a novelty hike Saturday. The hike started in the morning and the boys returned early in the afternoon to attend the Lawrence-Ripon college football game at Whiting field. Several surprise games were feature of the hike.

Twenty-five boys of the association spent Friday evening playing games in the club rooms. No regular social was scheduled because of the hike on Saturday, but the boys assembled of their own accord.

MASQUERADE DANCE AT GARDENS ON WEDNESDAY

The first masquerade ball of the season will be held at Cinderella Gardens next Wednesday night. Thirty prizes will be given to the best dressed individuals, couples and groups in various classes. Music will be furnished by the Gib Horn orchestra. Finland's orchestra of Madison has been engaged for Sunday, Nov. 13.

LETTER GOLF

SOUNDS LIKE WINTER SILK and WOOL sounds a little like winter, don't they? It takes only five moves to change silk to wool. You may even better this, but if you can't the par solution is printed on page 11.

S	I	L	K
W	O	O	L

THE RULES

1—The idea of letter golf is to change one word to another and do it in par, a given number of strokes. Thus to change COW to HEN, in three strokes, COW, HOW, HEW, HEN.
2—You can change only one letter at a time.
3—You must have a complete word, of common usage, for each jump. Slang words and abbreviations don't count.
4—The order of letters cannot be changed.

95 ARRESTS MADE HERE IN OCTOBER

Large Number of Motorists Included in Persons Taken into Custody Last Month

Ninety-five arrests were made by the Appleton police department during October as compared with 88 arrests in September, according to the monthly report of George T. Prim, chief of police. Fourteen arrests were for violations of the parking ordinance and nine for drunkenness. In September there were 14 arrests for drunkenness. The department car made 125 calls and traveled 811 miles. One search warrant was issued. Other arrests during the month were made as follows:

Falling to stop at arterial, 9; larceny, 3; insane, 2; drunken drivers, 4; resisting an officer, 2; parking without lights, 3; and one arrest for each of the following: driving automobile without transferring license, passing a street car which stopped to unload passengers, falling to send minor child to school, falling to stop after an accident, falling to stop for red signal lights, sodomy, forgery, reckless driving, driving without a license, bastardy, possession of intoxicating liquor.

'LITTLE PARIS MULLINERY' 50 beautiful youthful large head sizes for matrons, on sale tonight and Mon. Value to \$15—\$5. 313 E. Washington St.

DUCKS ARE DUE TO START TREK TO SOUTH SOON

Here's good news for the duck hunters: The ducks are just starting their annual trek south and if you are early enough to get up the old gun, get out the decoys, put a few patches on the old duck boat and see that the boots don't leak, there is a good chance of getting the limit almost any morning during the next few weeks. That is, providing the ducks don't fool you and stick to open water.

It was reported Thursday by a person of good authority that professional trappers in the marshes around Appleton and the lake regions, claim the ducks have just started south and that they are flying in droves and coming in a half dozen flocks at a time. They are two weeks late, according to those to keep track of the annual migration, but they have arrived and will continue to do so for some time.

Several hunters from this area who have recently returned from a trip several hundred miles north to Winnipeg, reported that the weather was typical "better fly weather" up there and that ducks and geese were going to be slow about head up south. Apparently that substantiates the reports of the professional trappers that the ducks have arrived.

Hunting last week was reported as being very poor, although the luckier fellows bagged the limit with more or less trouble. The ducks realize they are in open water and are steering clear of the marshes believing it is better to go hungry than be filled with lead.

HOPFENSBERGER BROS. INC. ORIGINATORS OF LOW MEAT PRICES

Now Come To The Front With "VOLUME OF BUSINESS Profit-Sharing One Item Only Daily MEAT SPECIALS"

THIS will mean, that with the exception of our Friday ad on the Market Basket Page, we will advertise daily in this paper *A One Item Meat Special*, a different special every day, at prices that have never been duplicated in this community! NEWS OF NEENAH AND MENASHA

SOCIETY

TWO SPEAKERS WILL DISCUSS AVIATION

Twin Cities Will Be Port of Call on Reliability Tour Next Summer

Neenah—Arrangements have been completed to bring W. J. Nichols, chairman of reliability tour, and Stuart Auer, well known Milwaukee aviator, here for a talk before the Rotary clubs of Neenah and Menasha at a joint meeting to be held Nov. 17 at Valley Inn. The men will talk on the air mail business and aviation in general. They will come here by plane arriving at the Neenah-Menasha airport shortly before time of the noon luncheon of the clubs.

Chester Held and W. J. Noll, manager and pilot at the local airport, returned Friday afternoon from Milwaukee where they attended a banquet given Thursday evening by Altona (udworth post American Legion, and at which arrangements were completed for the second annual reliability tour of four states during the summer months. The two Neenah men were highly complimented by pilots as having the best airport in this part of the state, both in size, level grounds, clear markings and its closeness to the business part of the city. Several well known aviators piloting some of the best planes have been booked to call at this portion their way through the state. A letter from Gov. Fred Zimmerman received Friday stated that his party would have gladly stopped at the Neenah port had the arrangements not been already completed when the invitation arrived at Madison.

NEENAH PERSONALS

Neenah—Mrs. George Birmingham and son George visited Friday with relatives at Green Bay.

Clarence Schultz, Fred Whitman, Fred Schnitzer and Charles Schultz have returned from a successful duck hunting trip to Poygan.

S. D. Baird of Green Bay is spending a few days with relatives here.

Mrs. T. J. Findley of Beaver, Colo. is visiting at the home of Mr. and Mrs. A. R. Kimberly. Mrs. Findley has just returned from a year's sojourn in Spain.

Mr. and Mrs. Fred Worthing, who have been visiting Twin city relatives the last few days, have returned to their home at Baraboo.

Anton Kuehl has returned from Milwaukee where he visited last week with Leonard Madison who will leave Sunday for Cleveland, O., where he will join the Cleveland Rosenbloom basketball team for the season.

Mrs. Irving Anderson and children of Milwaukee, are visiting at the home of Mr. and Mrs. Aug. Anderson.

Mr. and Mrs. Alfred Danke, Mr. and Mrs. Henry Julius, Mr. and Mrs. John Danke, Mr. and Mrs. George Julius, Mr. and Mrs. Harry Breaker, Mr. and Mrs. William Schultz, Mr. and Mrs. George Foth, Mrs. Rudolph Breaker, Mrs. O. Steffenhagen, Mrs. John Burr, Mrs. L. Stait attended the funeral of Mrs. Florence Barlow in Oshkosh Thursday afternoon.

Howard Metz is ill at his home on S. Commercial.

Mr. and Mrs. G. G. Hall and son of Eau Claire, are spending the weekend at the home of Mr. and Mrs. August Hamback.

Mr. and Mrs. George Garland of West Bend, are visiting at the home of twin city relatives.

Prof. William Heilerman of Trinity Lutheran school is spending a few days at Watertown and Milwaukee. No meeting of Berea Bible class was held.

Mr. and Mrs. William Campbell were at Appleton Friday afternoon, where they attended the funeral of Carleton Metzke.

Russell Fisher has returned from a visit with relatives at Freeport, Ill. James Ehrigott is home from Chicago on a weekend visit to his mother, Mrs. E. C. Ehrigott.

NEENAH WANTS TO BE HOST TO LEGION CONFERENCE

Neenah—Invitations have been sent to the state department of the American Legion, asking it to conduct its mid-winter conference for commanders and adjutants in Neenah during the month of January. Should the department accept the invitation, all commanders and adjutants of Legion posts in Wisconsin will meet here for annual conference. A meeting of the executive committee of the Neenah post was held Friday evening. The regular monthly post meeting will be held Monday evening at S. A. Cook armory.

LEGION AUXILIARY TO GIVE BAZAAR NOV. 12

Neenah—The annual bazaar and tea given by the American Legion Auxiliary will be held Saturday, Nov. 12, at S. A. Cook armory. Funds derived will be used in the Auxiliary's service work among World war veterans who are disabled and destitute and unable to secure government compensation.

1 NEENAH, 5 APPLETON MEN ON MIAMI'S TEAM

Neenah—One Neenah and five Appleton young men attending the University of Miami, Fla., featured in the opening game of that school's football season last Saturday. Francis Hauser played at tackle, while Clifford Courtney was at a quarter position. Rod Ashman was at an end and Lloyd Solie was a guard. Ted Blier, fullback and George Morris, substitute. The game was with Rollins college team, the Miami team winning by a score of 28 to 0. The team is coached by H. P. Gully back of Neenah.

Fish Fry Sat. Nite, Nabbe-feld's Hotel, 4th Ward.

NEENAH BOWLING

Neenah—Teams of the Hardwood Products company league rolled their weekly matches Thursday night at Neenah alleys. Engineers won a pair from Machines. Productions won the odd game from Finishers. Gluers won two from Shippers. Sanders won two from Veneers and Desk Birds took the series from Assemblers. John Neubauer scored high game with 236 and Jack Schneider high series with 628.

NEENAH ELEVEN MEETS TEAM FROM TWO RIVERS

Neenah—The high school football team, following some rigid practice during the last two days, was to play the Two Rivers high school team at Citizens' Athletic field this afternoon. While the Neenah team has gone through the entire season without scoring a point, it has the fighting spirit for his game and is determined to win. The coach has announced that unless the team wins this game and also the game with Menasha next Saturday, no letters will be taken out other than to those who have been regular to practice and followed training rules to the letter.

NEENAH SOCIETY

Neenah—More than 400 people were served Friday evening at the pan-fry supper given by the Neenah Lutheran society at the church dining room.

Mr. and Mrs. Charles Sherman, Sr., had their children as dinner guests Friday, celebrating the forty-eighth anniversary of their wedding.

Mrs. W. Z. Stuart entertained a group of young people Friday noon at her home on E. Wisconsin-ave. honoring her niece, Mrs. Ray Jordan of San Francisco, who, with her husband, is visiting relatives here. Mrs. Jordan is a daughter of Mr. and Mrs. Edwin Bergstrom of San Francisco and a granddaughter of Mr. and Mrs. George O. Bergstrom and Mr. and Mrs. J. A. Kimberly.

Mr. and Mrs. Harry Johnson entertained Thursday evening for Mr. and Mrs. Kendrick Kimball of Detroit. The evening was spent in playing bridge. Prizes were won by Mrs. Kimball, W. J. Fahrnkug, and H. L. Gear.

The fifth of the social dances will be given Saturday evening at Eagle hall by the social club of that society. Music will be furnished by Aerial orchestra.

Officers were seated at an open installation of the Fraternal Reserve association held Friday evening at Danish Brotherhood hall. The work was conducted by A. Caldwell of Oshkosh. The new officers are Fred McCrary, president; John Mollen, vice president; Vernon Hanson, secretary and treasurer; George McGuire, sergeant; Anna Widinski, messenger and Mrs. Katharine Krueger, past president. Following the installation cards and dancing were indulged in until midnight.

Our Savior Danish Lutheran church American Ladies' aid society conducted a successful food sale Saturday morning at the Sorenson and Son store.

Betsy Ross club met Friday evening at the home of Mrs. Edward Henselman on Harrison-st. The evening was spent in quilting two quilts which are to be given to some needy family.

The Saturday night lunches at Neenah club will be started tonight, the lunch to follow the evening's card playing. These lunches are served every Saturday night during the winter months.

Presbyterian Sunday school teachers met Friday evening at the church dining room where a supper was served followed by short talks on Sunday school work given by S. F. Shattuck and Miss Clara Bloom. Following the business meeting, the teachers divided themselves into groups and met in group sessions to arrange the work for the winter.

Pythian Sisters entertained 35 tables of card players Friday evening at Knights of Pythias hall. The evening was spent in playing bridge and schafkopf. Prizes in bridge were won by Mrs. J. Hogan, A. J. Danke, Mrs. Earl Thompson and Miss Bertha Knutson, and in schafkopf by William Schmidt, Miss Johnson and Mrs. J. C. Nelson.

K. C. TEAMS BOWL
Neenah—Knights of Columbus bowling teams will roll their weekly events Monday evening at Neenah and Menasha alleys. The Marquettes and San Pedro, Navigators vs. Commodore Barrys and Santa Marias vs. Madaras are scheduled for the Neenah alleys and Pintas vs. LaSalle, Shamrocks vs. Pioneers and Cordovas vs. Admirals are scheduled at Menasha at 7 o'clock.

The Neenah inter-city bowling league team will go to Fond du Lac Sunday afternoon to roll the team of that city.

KIMBERLY CLARK LEAGUE
Neenah—Kimberly-Clark bowling league teams rolled their weekly events Friday evening at Neenah alleys. Kimark Ross No. 1 won three from Collocation. Accounting won three from Engineers. Neenah Mill won three from Kimark No. 2 and Koles won two from Kimark.

Kimark No. 1 rolled high series with games of 325, 1600 and 927 for a total of 2915. Joseph Bart rolled high single game of 245.

SCOUT LEADERS TALK OVER FUTURE PLANS

Arrange to Move Scout Cabin Across Lake Winnebago Ice to New Scout Camp

Neenah—Twenty-six persons attended the meeting of the Neenah-Menasha district committee of the valley council, boy scouts of America, Friday night at the Elk club, Menasha. An outline of activities in the past month was read and plans made to continue the scout program through February. The survey report of the scout situation in Appleton was heard by the committee and its application to the Neenah-Menasha situation discussed. Problems of scout troops in the two cities in the past were the subject of comment and solutions advanced. Among other immediate plans brought before the committee was moving a scout cabin now in Menasha to the camping grounds on Lake Winnebago. The building will be moved when Lake Winnebago freezes over.

It was reported at the meeting that a charter had been presented Troop 14 of the Congregational church, Menasha together with the scout master's commission and scout registration cards for the troop members. John C. Lloyd is scoutmaster. Plans were advanced for the reorganization of the St. John catholic church, troop at Menasha. Troop 15 of St. Patrick church, Menasha, has also re-registered.

MISSING DOG FOUND BY MENASHA POLICE

Menasha—Green Bay Transportation company lost a Collie Friday at Neenah that was in transit from Milwaukee to Green Bay. Chief of Police C. H. Watts was given a description of the animal and Saturday morning he notified the company that the dog was at his office.

BEAUTIFY SUB-STATION FOR TRACTION COMPANY

Menasha—The sub-station of Wisconsin-Michigan Power company on the newly paved highway between Appleton and Waukegan is to be made a beauty spot. A crew of men is at present engaged in grading the enclosure and running passageways through it, after which it will be planted with grass seed and shrubbery. Flower beds also will be added.

MENASHA PERSONALS

E. T. Jourdain was at Weyauwega Friday on business.

Mrs. Albert Monroe of Shawano visited Twin City relatives Friday.

A daughter was born at St. Elizabeth hospital Thursday to Mr. and Mrs. Edward Seithammer, 551 Broadway.

MAYOR RECOVERING
Menasha—Menasha friends, who called on Mayor J. H. Denhardt of Neenah at Mercy hospital Friday found him able to sit up for a short time. Since going to the hospital two weeks ago he submitted to an operation and expects to return home within the next ten days.

JUMP OFF TRUCK JUST AS TRAIN STRIKES IT

Neenah—A light truck owned and driven by Bernard Kosloski, Higgins-ave, was demolished at 10 o'clock Saturday morning when it was struck by a north bound Chicago-Northwestern railway freight at the E. Wisconsin-ave crossing. Mr. Kosloski and his younger brother Sylvester, were in the truck as it neared the crossing but saw the approaching collision and managed to jump just as the train struck the truck which was dragged down the track for 40 feet before it was thrown to one side. Mr. Kosloski claimed he did not see the gates being lowered and got onto the tracks too late to back off.

BIG AUDIENCE HEARS METHODIST QUARTET

Neenah—Mrs. MacCreedy, Miss Efflin, George Nixon and Carl McKee, the Appleton Methodist church quartet, gave a program of music Friday evening at the Methodist church before a large audience. Each artist appeared in solos and the four presented some harmony music as a quartet. Mr. Nixon introduced as a specialty a hand saw solo.

LATEST NEWS OF THE AUTOMOBILE INDUSTRY

FLOOD CAUSES JUMP IN PRICE OF COTTON

Fabric Used in Making Tires 50 Per Cent More Expensive Than Last Year

"American car owners generally regarded the Mississippi Valley flood as a great disaster, but few of them, apart from the actual immediate flood sufferers, figured that it might affect their pocket-books," declares Stanton, of Stanton Tire Service, General Tires Distributors in Outagamie County. "Nevertheless cotton, so important in tire manufacture, is already fifty per cent higher in price than it was, and there are many predictions that it will go still higher. The actual acreage inundated and the size of the crop actually destroyed has not been completely computed; there was considerable replanting as the flood receded, but actual restoration measures are of little use in the Mississippi Valley, for instead of depositing rich silt in its wake, as is the case with Nile floods in Egypt, the Mississippi left many feet of dead, unproductive sand on thousands of acres of rich cotton land, making it worthless for generations to come, if not forever.

"So the market price of cotton is based on crop shortage, of which the flood was one prime cause. Another important factor affecting this year's cotton in America has been abnormal weather in many parts of the South, causing late planting or retarding the development of the plants, and the boll weevil has also been exceedingly busy.

The high price of cotton has not yet touched the price of tires, though it is likely to have that very effect if the season continues unfavorable and prices go higher, as is predicted by many expert observers.

"The price of rubber is regarded by a large part of the public as a barometer of tire prices. It is not generally realized that a sharp rise in the price of rubber a few years ago was caused by the fact that rubber is only one of about two hundred cost items that enter into tire manufacture. Cotton runs a close second, and other material and labor costs make up the rest.

"Rubber, incidentally, has risen in the immediate past and a further stiffening of the market is expected when the next additional restriction in the export of crude from Malaya becomes effective November 1st. These general factors are now at the lowest price to the consumer that they have ever been; this has given motoring a great help and encouragement. All indications are that the changes that are sure to come will not be in the direction of lower tire prices."

AUTOMOBILES NEED CARE OF "DOCTORS"

Director of Oakland Service Urges Motorists to Have Pre-winter Inspection

Sick people do not work properly. Neither can 'sick' automobiles. The only difference being, a person can sense an ill-feeling and go to a doctor, while the automobile carries on until cold weather comes and forces a visible protest—then a repair job is needed. This is the observation of R. A. Armstrong, director of service of the Oakland Motor Car Company, who urges owners to have their cars given a pre-winter inspection and adjustment necessary to insure maximum cold weather performance.

"This pre-winter automobile check-up is similar in its purpose to the growing practice of visiting a physician every autumn just for inspection," said Mr. Armstrong. "The physician checks over the visitor's physical condition, alters his diet, possibly gives him a hypodermic of cod liver oil, directs him to change to heavier clothing and in general 'services' him for the winter. It is a wise precautionary measure that undoubtedly prevents many winter ills.

"The few essential attentions which are necessary before any automobile can maintain its best service under lower temperature conditions, require very little more time than the physician consumes in preparing the human machine for the rigors of winter. But that hour or two will pay large dividends in uninterrupted driving satisfaction. Many of the Oakland-Pontiac service stations have grouped these cold weather precautions under a flat rate which compares favorably with the fee which a competent physician charges for physical examination.

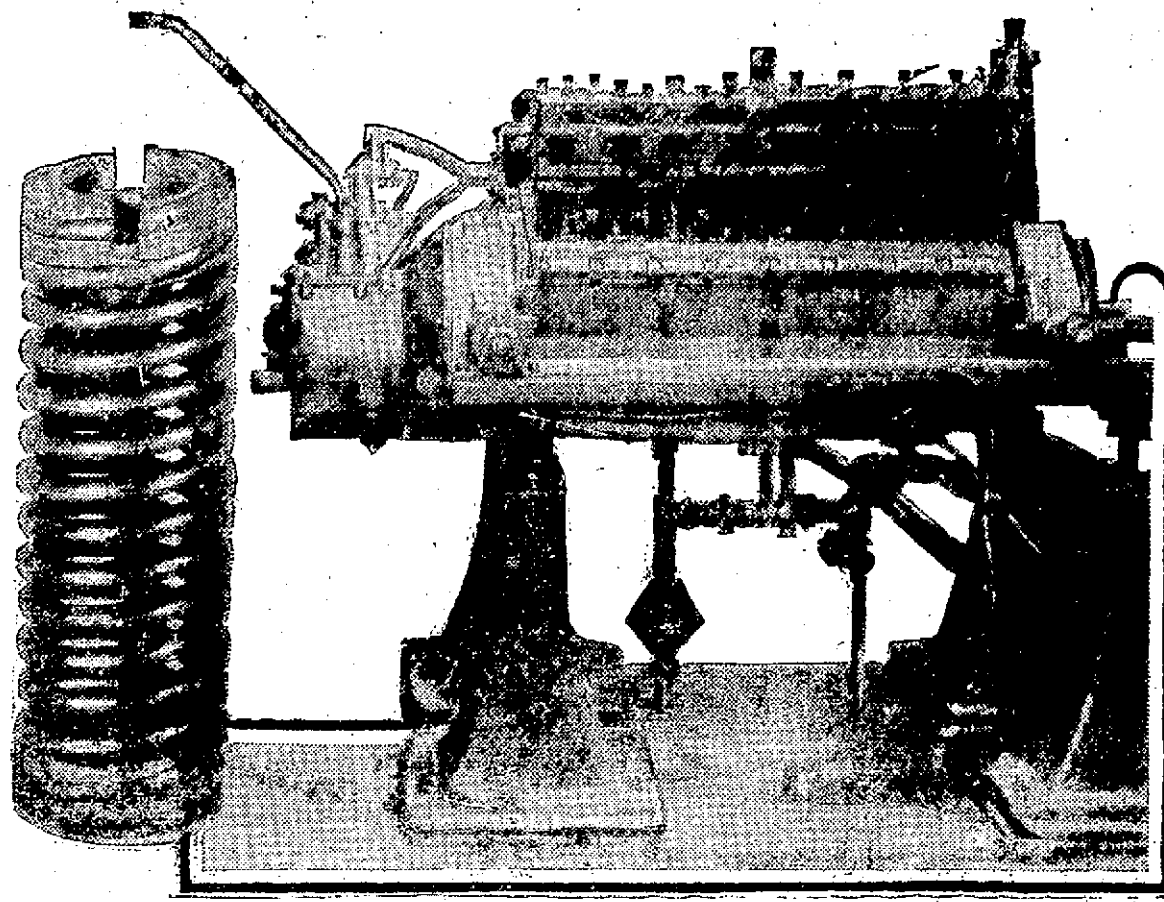

"Highly important among these details is a change to lighter lubricants in crank case, transmission and rear end. A lighter grade is necessary if the moving parts are to operate smoothly in the cold. The change is a simple one, and should be made before the weather turns cold. The change is a simple one, and should be made before the weather turns cold.

"Gasoline tank, gasoline lines and carburetor should be cleaned. The carburetor should be adjusted to give a slightly richer mixture, which is nothing more than placing the car on a cold weather diet. Spark plugs should be cleaned or if they have been in service for more than 10,000 miles they should be replaced. Distributor points should be cleaned and adjusted. Radiator hose connection should be tightened. If compression has been reduced by long service, it should be brought back to normal. Hard starting in winter often may be traced to low compression.

"While many motorists now understand cars are thoroughly checked, they are able to do practically all of these operations in their home garages. We advise our owners to place the car in an Oakland-Pontiac garage where trained service specialists are available.

"The flat rate plan is spreading steadily through the Oakland service organization. It is meeting with universal approval from motorists. Under the plan, the cost of service is like the counter at a known price just as they would any other commodity."

NEW TYPE SPRINGS ARE FEATURED BY PACKARD

One of the most interesting features of the improved Packard cars is the completely new type of valve springs. It represents, it is said, one of the most important steps which have been taken in motor design and improvement in years.

The spring actually is two springs coiled together and held at each end with ingenious caps which secure the coils rigidly in place in relation to each other. Use of the two springs, each lighter than the conventional single valve spring, carries the vibration period of the assembly to a point far above that possible to be reached in an automobile motor.

Breaking of valve springs from vibration, the almost universal cause of spring failures, is ended with the new spring.

The accompanying picture shows one of the springs and gives a view of a set of springs undergoing the most severe test ever given automobile valve springs. The engine, driven by an electric motor, has been running day and night, excepting only Sundays since May 10 at a speed equivalent to 65 miles an hour.

After a set of springs has operated 300 hours, it is replaced by a new set, so test data can be obtained on a great number of sets. It was determined that any valve spring which would stand up under such a test for

300 hours never would break during the life of a motor car. Packard engineers say the springs after 300 hours show no signs of wear or fatigue.

With stops only for Sundays and to install new sets of springs the motor has operated more than 3,000 hours, or the equivalent of more than 200,000 miles at 65 miles an hour practically sustained speed. No repairs whatever have been made on the engine. There is still no apparent wear on the valve stems or in the valve stem guides, although each valve has travelled up and down in its guide more than 640,000 times. There have been also 6,400,000 spring movements.

ORDINARY GASOLINE USED BY STUDEBAKER

Engines Are Extremely Economical in Use of "Gas" but Perform Well

It is not necessary to pay from 5 to 6 cents extra for high test gasoline to secure the full advertised performance of Studebaker automobiles, according to an announcement made by the Studebaker Corporation of America.

"Studebaker cars are built to deliver every thing claimed for them on ordinary gasoline," the announcement reads. "A few manufacturers are devoting a great deal of sales talk and advertising to high compression motors and specially designed cylinder heads, which require special and more expensive gasoline. In fact one manufacturer advertises that a certain motor cannot deliver its full performance unless high test fuel is used.

"Studebaker L-head engines are so designed that they are extremely economical in the use of gasoline, yet deliver unusually high performance. Every bit of raw gasoline is vaporized when it enters the combustion chamber. Each explosion burns all the gasoline in the cylinder. This eliminates oil dilution and keeps the motor clean.

"A noteworthy instance of Studebaker living up to their advertising may be found in the 61 different fuel tests conducted with the Studebaker Commander in different parts of the country. These tests were supervised by automobile club officials or automobile editors. Special one-gallon containers were used and each gallon of gasoline was carefully measured. In different tests, the Commander delivered an average of 17 1/4 miles per gallon of fuel. Ordinary gasoline was used in each test."

CONTINUOUS JOLTING HARD ON BATTERIES

Hold-downs Must Be Kept Tight to Prevent Short-circuiting

Suppose you were to drive your car for five miles down the middle of a railroad track, would your battery withstand the jolts and jars it receives when the car passes over the ties?

It most assuredly would not if the hold-downs were not tight enough and

FALCON WILL EXPAND ITS ELYRIA FACTORY

Plans Are Made for Output of 35,000 Automobiles Next Year

Announcement was made today that Falcon Motors Corporation is expanding its plant at Elyria, O., to accommodate an increased production schedule for next year. According to an official statement, the company plans to build 35,000 cars from the beginning of their fiscal year Dec. 1, 1927, to Dec. 1, 1928. The Elyria plant was laid out last year to provide for expansion as needed. Additional machinery is now being installed with interrupting present production.

During the six months period from April 1, when the first Falcon-Knight car was produced, until September 30, the company produced and shipped approximately 10,000 cars. The dealer organization has expanded rapidly during this period, and retail sales have shown a consistent gain. It was stated that the sales record of the past six months is exceptionally good for a manufacturer during its first year, considering the fact that initial production started rather late.

Taking into consideration the enlarged dealer organization, and the fact that next year dealers will be in a position to fill orders for early spring delivery, it was further stated that this increased production would be readily absorbed by Falcon-Knight dealers, and allowance is being made for further expansion if a greater increase in production is found necessary during the year.

It was allowed the freedom in its carrying case to respond to every jolt and jar of the car.

"This same analogy applies to ordinary driving," says Mr. Al Schroeder, of the Willard Battery Service Station. "An automobile owner who does not keep the hold-downs of his battery tightened, loses from one-quarter to one-half of the life of his battery. The constant jolting and jarring of the battery caused from loose hold-downs will soon wear the insulation through, causing short circuits between the plates or break the plates themselves.

"Regular trips to a service station will insure an owner of tight hold-downs and added battery miles for every dollar expended on his battery."

TIRES ARE INFLATED WITH CAR IN MOTION

New Invention Being Tested Out by Miller in Akron Factory

Will automobile science eventually devise means to inflate tires while running, with a gauge on the instrument board to record tire inflation, similar to gasoline and oil gauges? Such speculation is inspired by a device that inflates tires and keeps them at the required pressure, while being tested for power transmission, at the factory in Akron where Miller tires are made. "While running a tire at high speed on this machine, called a dynamometer," air is forced into the body into the tire by the mere turning of a valve.

On a convenient instrument board, a gauge keeps accurate record of the air pressure in the tire. It is necessary to hold tires under test in this machine at a certain pressure that most accurate results may be obtained in determining power transmission. These laboratory tests are far more severe than every day tests in actual service. In order to make tests deliver the greatest constructive information, conditions are made very exacting.

The purpose of these tests, according to Miller engineers, is to employ science to make even better tires. On the dynamometer, tires show the amount of power, generated by an automobile engine, that is transmitted to the road at various speeds. Tires slip slightly at each revolution and friction results. Dynamometer tests show the amount of friction caused, and the effect on the tire.

Perhaps it is expecting too much of automobile engineers to look forward to the day when an air pump and reserve tank will keep tires inflated while running at high speed, but a number of commonplace conveniences on automobiles now, looked as impossible a few years ago.

SENSATIONAL TESTS COMPLETED BY ESSEX

Travels at More Than 60 Miles an Hour Although Using Kerosene as Fuel

How effectively Hudson-Exess cars vaporize fuel and extract from it every unit of energy, is indicated in

OLDSMOBILE TO PUT UP ANOTHER BUILDING

Spend \$3,000,000 for Structure to Be Used for Oldsmobile Development

Lansing, Mich. — Contracts were this week awarded for construction of another new building to be devoted wholly to Oldsmobile development, design and research work. This latest construction work is in addition to the \$3,000,000 expansion program that is now under way and which will greatly increase the production facilities of the Oldsmobile factories here.

This new engineering building will be completed shortly after the first of the year, closely following the completion of the other units of the expansion program. It will be equipped with the latest of modern and scientific apparatus designed for research and development work.

The engineering building will be 400 feet long by 30 feet wide, containing 38,000 square feet of floor space. It will be constructed of steel and brick and has been designed to give a maximum of daylight in every portion of the building.

The building will contain the research laboratories, dynamometer rooms, experimental machine shops, experimental garage and a model car studio.

The laboratories and dynamometer rooms will contain a battery of four standard dynamometers for the recording of scientific measurements of torque and power, a chassis dynamometer and a battery of six "life test" dynamometers which will be used to test the final breaking point in an automobile engine by keeping it running continuously at high speeds and under heavy loads. There also will be special machines for the accurate and scientific testing of cooling, lubrication and other features of automobile design.

Installation of the new devices to be installed in this model engineering building have been designed to bring closer coordination between the information developed by actual road tests at the General Motors Proving Ground and by laboratory test work. This coordination is required to meet the exacting requirements of the best automotive engineering practice.

This new building will be the headquarters for both road and laboratory tests. Oldsmobile test fleets coming from all going to the Proving Ground will be housed in the new building so that they will be available to the same engineers who conduct the laboratory tests.

Two of the many new devices which have been developed and which will be installed in the new engineering building are an improved type of dynamometer and a torque demand indicator.

Heretofore, dynamometers have been capable of measuring horsepower only. The new type has been augmented by new devices which permit of a scientific check of other factors, such as a measure of acceleration, power and the amount of horse power required to overcome car inertia.

The torque demand indicator is a device that can be placed in an automobile in place of the transmission. This gives an accurate record of the horsepower required under certain conditions, such as hill climbing, deep sand driving and to overcome road resistance, while the car is being road tested. The co-ordinated data from this machine and the new type dynamometer will permit the duplication of the same tests either on the road or in the laboratory.

Using these two machines will allow the engineers to apply their keenly sensitive instruments to an engine while it is running on a block and detect every detail of engine performance under actual road conditions. This permits scientific analysis of causes of various conditions impossible when a car is being operated on the road, where tests merely result in observations of effects and results.

The experimental and development machine shop will be equipped with fine precision machines including facilities adequate to build an entire automobile within the new engineering building.

The slow motion picture will be called upon to assist in analyzing car reactions to actual road conditions. This will be used in conjunction with the chassis dynamometer which, for these tests, will be equipped with eccentric rolls with uneven surfaces to

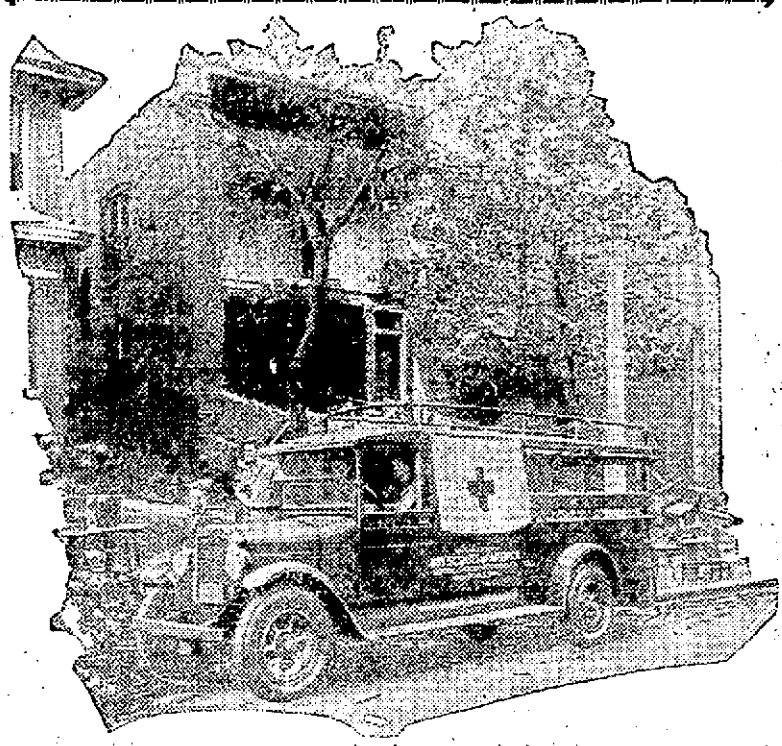

reports to the Hudson factory from the Pacific Coast, where sensational tests have just been completed with an Essex Super-Six.

These tests—conducted by the Walter M. Murphy Motors Co. distributors for Southern California—proved that an Essex Super-Six car can travel at over 60 miles an hour using kerosene as fuel; in fact the Essex ran faster than a mile-a-minute clip on a still lower grade fuel, or distillate. With the kerosene, the car ran about two miles an hour faster than with distillate.

"These tests," in the opinion of Appleton Hudson Co. Hudson-Exess dealer in Appleton, "prove that the Essex motors are perfectly designed from the standpoint of vaporizing fuel. Unless the carburetion and the manifold systems were of exceptional efficiency, the motors would misfire and function poorly. When standard gasoline is used, of course, the performance of the cars is still more outstanding.

"The usual feature of these experiments is that the Essex Super-Six is a high compression motor. It employs in fact possibly the highest ratio of compression in any standard motor car. There has been a mass of propaganda in high compression motors designed to make the average motorist believe that they require special fuels. Such is certainly not the case with Essex-Hudson. Either of these cars will operate on any old fuel at all—even fuels which are far below the standard of regular gasoline. They will not simply 'get by' with regular gas; they will perform very efficiently and pleasantly indeed. This is a feature of superiority built into their design."

ORDER OUT OF CHAOS IN ST. LOUIS SPEEDED BY STURDY GRAHAM TRUCKS

While destruction wrought by the recent devastating tornado in St. Louis is still visible to sight-seers, their awe at the havoc which can be wrought by wind is paralleled by wonder at the quick recovery of the stricken districts. One of the chief factors in the work of bringing order from chaos was a fleet of more than 40 Graham Brothers trucks immediately impressed into service from their

regular duties. These were manned by boy scouts as shown above of volunteer workers under direction of the Red Cross. They aided immeasurably in quickly transporting the injured to hospitals and in some instances furnished the power to move large masses of debris which imprisoned victims of the storm. A large number of these trucks are still at work in speeding the present rebuilding program.

MOTORCYCLE GIVES LOW COST DELIVERY

Savings of Consequence Can Be Made in These Days of Keen Competition

Efficient, low-cost delivery is a question of vital importance in these days of keen competition and hand to mouth buying. The business man who can cut his delivery costs to 1-3 the present figure, and at the same time give his customers quicker and better service, will not only reduce his overhead but will also materially increase his sales volume.

"Three cents a mile" is good news to the business man. No one knows better than he that when he increases his sales and cuts his expenses, his profits receive a double boost. Harley-Davidson Package Trucks are now used in 43 different lines of

simulate actual road conditions. Slow motion pictures of a car riding the chassis dynamometer and the use of the stroboscope will enable the engineers to study spring and shock action and in fact, every detail of a car's road action.

The outward appearance of an automobile is of major importance and provision for this feature of engineering has been made in the model car studio.

The studio will be equipped with turntables that can be slowly revolved to permit a study of every angle of a car model. Special lighting effects will reveal every detail of the car design and will be used to demonstrate night driving conditions and reflections. That portion of the building devoted to the car studio will have walls that can be opened so that long range views of the cars on the turntables may be had without limitations caused by the building dimensions.

The studio will be equipped with turntables that can be slowly revolved to permit a study of every angle of a car model. Special lighting effects will reveal every detail of the car design and will be used to demonstrate night driving conditions and reflections.

Engineering production activities will remain where they are now located as will the engineering executive offices. This will entirely divorce current production engineering work from the design, research, experimental and development activities. The metallurgical laboratory also will remain in its present location as it functions not only in engineering activities but also in making metallurgical tests of production materials as they are received.

That the opium habit in Egypt is less than the use of alcohol was the declaration recently of an Egyptian medical official.

CHEVROLET ROUNDS OUT SIXTEEN YEARS

Build Five Cars in First Year of Existence and Million Cars in Sixteenth

Neaving the close of the most successful year in its history, and with its position outstanding as the world's largest builder of gear shift cars and trucks, the Chevrolet Motor Company this week rounded out its sixteenth year of existence.

Named for Louis Chevrolet, well known race driver of an earlier decade and active figure during the infancy of the automotive industry, the Chevrolet Motor Company of Michigan was organized on November 3, 1911. That year five cars were built. This year one million cars will be built more than the combined output for the first eleven years of the company's existence.

That first year a handful of men worked in an obscure factory at West Grand Boulevard and the Viaduct, Detroit, to turn out mostly by hand methods those first five cars. Today more than 100,000 people are directly employed in producing, selling and servicing Chevrolet cars.

Today eleven great factories—exclusive of export operations—are running to capacity to meet the demand of Chevrolets infinitely superior to, and listing at one-fourth the cost of these first cars.

The "Royal Mail" and "Baby Grand" models brought Chevrolet wide popularity in the early days, but the "490" model, so named because it listed at

business because they build more trade—because they slip through traffic so quickly and park so easily—because they are such a wonderful advertisement. Harley-Davidson Package Trucks are a sound business investment.

Mr. Harry Macklin local Harley-Davidson dealer points to the fact that merchants all over the country are endorsing Harley-Davidson Package Trucks for delivery work.

Mr. G. F. Forber, Florist of Dayton, Ohio, says his Harley-Davidson shows 2-3 saving.

For every six months motorcycle operates, we add one year to the life of our automobile equipment, which on account of some heavy hauls, is indispensable.

The elimination of one driver and quicker service to customers. The advertising value derived from the novelty of such a piece of equipment operating on the streets.

LA SALLE EQUIPPED WITH THREE BRAKES

Four Major Provisions for Safety Produce High Grade Combination

As a safety factor brakes are of even greater importance than the engine. The complete braking system of the LaSalle consists of three pairs of brakes—external contracting brakes on the rear wheels, internal expanding brakes on the front wheels, and a third independent pair of internal, expanding brakes on the rear wheels. The four-wheel braking system is of the mechanical type and the external rear brakes and the internal front brakes are controlled by the foot pedal.

A complete reserve braking system is provided in the hand-brakes, which operate on the rear wheels and are independent of the four-wheel foot-controlled brake system in every detail of their mechanism. This hand brake operates internal expanding brakes in the rear drums. It has full wrapping action in both directions and requires no adjustment during the life of the lining.

In the LaSalle brakes there are four major provisions for safety producing a safety combination which is attained only in brakes of this type.

The first factor is a type of construction which provides for the release of braking effort on the outer front wheel during a turn. No matter how hard or how suddenly the brakes are applied, it is impossible to lock both front wheels when turning. The outer wheels will always rotate to steer the car.

Another factor is the proper proportioning of the braking effect between front and rear wheels. In order that neither front wheel will lock until more than enough pressure has been applied to lock the rear wheels, the braking effect of the front wheel brakes is purposely made less than that of the rear wheel brakes.

Provision for safety is further made to counterbalance the effect of heat in expanding the brake drums. Internal foot brakes on the front wheels are combined with external foot brakes on the rear wheels. Through the division bar, to which the brake pedal is connected, the effect of expansion of the front wheel brake drums is neutralized by the opposite effect of expansion of the drums on the rear wheels.

The applied position of the brake pedal, therefore, guards against the possibility, on long steep grades, either of the brakes seizing, or of loss of brakes due to pedal striking the floor boards because of expansion of the brake drums.

Finally, safety is enhanced by the provision of a hand brake, operating an entirely separate and independent system.

\$490, placed the company definitely in the field as a volume producer of motor cars. That was in 1915. That year 70,701 cars were built.

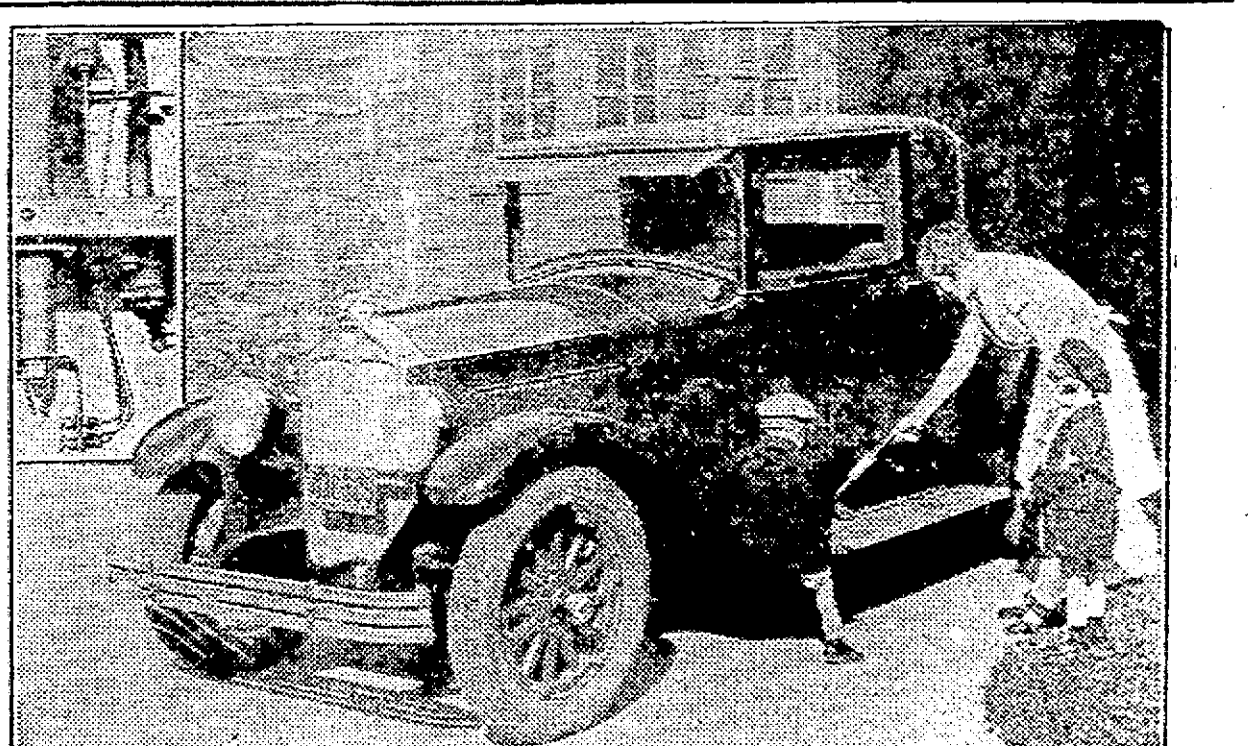

Shortly afterwards the first assembly plant began production at Oakland, California, to supply the West Coast. Seven more such plants have since been erected, and one is now in process of construction at Atlanta, Ga. These are located at strategic points throughout the country to render the greatest possible service to the car purchaser.

General Motors took over Chevrolet in 1918, with wide expansion following. In 1925 for the first time volume exceeded the half million mark. The 1926 production was 732,147 cars and trucks. That record was equaled this year on August 12, and company officials look forward confidently to one million units in 1927.

On Chevrolet's birthday, W. S. Knudsen, president and general manager, commented upon the extraordinary production and sales records the company has enjoyed in its comparatively short life. These records, he said, reveal the confidence placed in Chevrolet and its cars by the public.

This attitude, Mr. Knudsen pointed out, is a deep source of gratification to Chevrolet and in turn places the company under obligation to adhere rigidly to the exacting standards which the public has learned to expect of all Chevrolet products. The same policy that marked Chevrolet's sixteen years of past achievement—that policy of turning back into the car the manufacturing economies resulting from volume production—will be continued, Mr. Knudsen stated.

LUBRICATING BUICK IS MADE EASY

"The change which makes greasing the car, to a point where they may be lubricated from the side, a little easier. It is merely the extension of the inaccessible grease connections, formerly reached by crawling under, rear grease connections, which used to necessitate lying under the axle, have been brought out within easy reach. The whole job of greasing may be done now in a few minutes without soiling hands or clothes."

THE BOOK PAGE

COUNT LUCKNER, THE SEA DEVIL

By Lowell Thomas

REVIEW BY ELEANOR WING

Do you remember WITH LAWRENCE IN ARABIA, a book by Lowell Thomas, published early in the past war years? If you do, you'll remember what a startling book it was—the eye-witness story of the astonishing deeds of the mysterious Colonel Lawrence in Arabia, one of the most remarkable adventures of modern times. It was from the lips of Lowell Thomas that the world first heard of this mystery man of the east.

Since writing that remarkable book, Lowell Thomas has been searching through the Teutonic ranks to find a hero paralleling Lawrence, on the other side. Count Luckner, the sea devil, is the man he has found. The autobiography was published this month by Doubleday Page & Co. It smacks a little of the glory of Captain Kidd's times, although it is not in the least bloodthirsty. Count Felix von Luckner, a gallant and heroic man, sent fourteen allied ships without the loss of a single life.

He turned an old American sailing schooner into a raiding vessel which

sailed though the Allied fleet disguised as a Norwegian lumber carrier even to the members of the crew. As a youth he had run away to sea before the mast—had become a sailor in the German navy, and was the only naval officer to have seen from the tanks, a 10 ft. and ready character noted for direct actions and supple language.

Before sinking an Allied vessel, he brought everyone on board his own ship, where he treated them royally. He never sank a ship without first turning up a German flag and putting on a German uniform. Life aboard his ship must have been a weird and exciting affair—sometimes resembling the old pirate life, and at other times, the very modern club-like ship cruising of today. The skipper of the ship, the Sea Devil, took formed a Captains club aboard the Sea Devil, and spent happy days causing, playing poker, and telling yarns, while Count von Luckner, was on the lookout for new Allied vessels to capture.

Thomas tells a good story, although the same faults which marked WITH LAWRENCE IN ARABIA, are to be

found in COUNT LUCKNER. He repeats a lot, in telling his story, uses the same phrases over and over again, making his incidents monotonous when they are in reality varied and exciting.

One suspects the author of much experience in journalism, where it is important to put the most important idea at the beginning of a paragraph and not to pay too much attention to word creating an exotic style. Certainly, he has used very few three-syllable words, very little unusual language, and little variety of narrative. But the meat of the book is worth eating. It is rather unusual to read about German heroism, after we have had so much literature on the other side. The strategy Count von Luckner employed, the 25,000,000 worth of allied ships which he sank, are facts which are worth listening to. The count is touring America during the 1927-1928 season, giving lectures. They may and may not be as interesting as Mr. Thomas' book. But at least, THE SEA DEVIL will prepare you to receive a very unusual character, who was romantic enough to carry out his siege as Ponce de Leon might have done it in the days of Queen Elizabeth, and who was skillful enough to succeed in doing his duty without taking a single life.

CHANGE INSCRIPTION OF EMMANUEL CHURCH

Association Re-unites With Branch Organization After Separation

Stonecutters recently removed from the Emanuel Evangelical church, the last vestige of the church's association with the Evangelical association under which the order had been known for several years and substituted in its place the modern name. Not only was the name changed from the old order but the inscription no longer will appear in German.

For years the church, which is situated at 303 N. Durkee-st., has borne the German inscription Evangelische Gemeinschaft which meant Evangelical association. In the last 25 years however, the association has reunited with a branch which years ago separated from the first organization and called itself the United Evangelical church. When the two groups were finally joined together the name of the entire organization was changed to the Evangelical church, the inscription which the church now bears.

Contrary to public opinion the Evangelical church is purely an American organization having been founded in Pennsylvania about 1890. The church was first organized among the Pennsylvania Germans and as these people spread to other sections of the United States they took their religion with them and set up branches in other states. The church was then known as the Evangelical association.

Years ago the organization split into two sections, one to be known as the Evangelical association, the other the United Evangelical church. About 25 years ago at a meeting of the general conference it was decided to reunite the two branches under the common name Evangelical church. There had never been any friction in the local church over the name and until recently it was not deemed necessary to change the inscription.

There is, however, another reason for the change. Most of the members of the church have been brought up in this country for many generations and have lost contact with the German language. Therefore, many probably did not know what the German words meant unless they inquired of some other person. At the instigation of the younger members of the congregation the inscription was changed to the English words. The church still has German services but the general meeting is carried on to conform with English practices and in the English language.

FARM IS SECURED FOR NEW CITY DUMP

Dumping of Clean Ashes and Dirt Will Be Permitted by City

The John Tracy farm on the Johnson road will hereafter be used as the city dump, the street and bridge committee of the common council decided Thursday night. Mr. Tracy rented the dump ground there to the city for \$500 a month and he will pay the cost of keeping a man at the dump to keep the road in shape and to direct unloading of rubbish.

Dumping of garbage in any other dump in the city is forbidden and watchmen will arrest anyone getting rid of garbage in that manner. Mike Reinhaber, chairman of the committee, said Friday.

Only clean ashes and dirt may be dumped in dumps in the city. Such dumps are located on W. College-ave., the end of E. Washington-st., Calumet, and Elm-st. near Lawrence-ave.

CITE REGULATIONS ON FAST MAIL DELIVERY

Regulations governing special delivery mail in European countries and Mexico have caused the postal department considerable trouble, according to Fred Felix Westwood, acting postmaster at the local office. Many persons either do not know what the rules are to countries when special delivery service is given or do not take the trouble to find out, it was said.

A recent bulletin from Washington states that the special delivery rate for foreign countries is 20 cents in addition to the regular postage.

Special delivery service is in effect in Australia, Austria, Belgium, Canada, China, Cuba, Czechoslovakia, the free city of Danzig, Denmark, Estonia, Finland, France, Germany, Great Britain, Hungary, Irish Free State, Italy, Japan, Lithuania, Mexico, Netherlands, Newfoundland, North

Can You Name All Twelve Of The Famous People?

Here is the third picture puzzle. It's not a bit hard, either. No 29, for instance, is a former marine who was given a great deal of money for a certain night's work in Chicago recently. Fill in your answers below, wait until you have the full set of six, and mail them to the Picture Puzzle Editor of Appleton Post-Crescent.

DR. DOREMUS Medical examiner

FRANK SWACKER Secretary to the District Attorney

CURRIE Vance's valet

S. S. VAN DINE The Narrator

THIS HAS HAPPENED

A woman's gloves and handbag are found at the scene of Benson's murder and Markham, tracing them to Miss St. Clair, has her brought to his office. She makes flippant answers to his questions but betrays concern when Markham asks if Leacock had not owned a Colt 45, the same type of gun that killed Benson. Vance tells Markham he is certain of the girl's innocence.

NOW BEGIN THE STORY

CHAPTER XVI

Markham studied him for a few seconds. He knew there was something more than a mere whim beneath Vance's certitude of manner, and it was this knowledge that had stayed his hand when he was about to have the woman placed in custody.

"Her attitude was certainly not conducive to one's belief in her innocence," Markham objected. "She played her part damned cleverly, though. But it was just the part a shrewd woman, knowing herself guilty, would have played."

"I say, didn't it occur to you," asked Vance, "that perhaps she didn't care a farthing whether you thought her guilty or not—that, in fact, she was a bit disappointed when you let her go?"

"That's hardly the way I read the situation," returned Markham. "Whether guilty or innocent, a person doesn't ordinarily invite arrest."

"By the bye," asked Vance, "where was the fortunate swain during the hour of Alvin's passing?"

"Do you think I didn't check up on that point?" Markham spoke with disdain. "Captain Leacock was at his own apartment that night from 8 o'clock on."

"Was he, really?" airily retorted Vance. "A most model young fellow."

Again Markham looked at him sharply.

"I'd like to know what weird theory has been struggling in your brain today," he mused. "Now that I've let the lady go, perhaps you thought her guilty or not—that, in fact, she was a bit disappointed when you let her go?"

"By the bye," asked Vance, "where was the fortunate swain during the hour of Alvin's passing?"

HARRY LONG

Moving—Hauling—Crating

the only sure and trustworthy means of determining human mind. All others are mere guesswork, a scientific uncertainty and—perilous.

Throughout this explanation Vance manner had been almost casual, yet the very ease and assurance of his attitude conferred upon his words a unusual sense of authority.

Markham had listened with interest, though it could be seen that he did not regard Vance's theorizing seriously.

"Your system ignores motive altogether," he objected.

"The following conversation in which Vance explains his psychological methods of criminal analysis, is, of course, set down from memory. However, a proof of this passage was sent to him with a request that he revise and alter it in whatever manner he chose; so that, as it now stands, it describes Vance's theory in practically his own words."

(To Be Continued)

PAINT TRAFFIC SIGNS ON CHERRY-ST PAVING

"Keep to the right" will be painted on S. Cherry-st. pavement at the end of the boulevard according to Mike Steinhauer, chairman of the street and bridge committee. The city limits sign will be removed from the boulevard and placed on the east side of the street, he declared.

Free Consultation to CHRONIC SUFFERERS

I want to talk to you. The fact that you have been treated elsewhere without benefit does not discourage me in the least; I am helping men and women every day, effecting cures, many times, in cases pronounced incurable by others, so that I feel sure I can do as much for you.

DR. TURBIN

WHO has visited this vicinity for the past 35 years will be again in APPLETON, Monday, Nov. 7th, 1927 at the Conway Hotel.

Office Hours 9 a. m. to 8 p. m. every 4th Monday, the entire day.

ARE YOU IN NEED OF MEDICAL TREATMENT?

If so, Dr. Turbin's thirty-five years' practical experience assures, through his services, excellent medical care.

SICK PEOPLE

Dr. Turbin's advice is FREE to you. If you desire any information regarding your ailment and treatment, you are invited to avail yourself of this FREE offer. Everyone is free to call as the free consultation does not involve any obligation.

FOR THIRTY-FIVE YEARS, Dr. Turbin has confined his practice to the treatment of CHRONIC cases of Stomach, Liver, Heart, Kidney, Bladder, Intestinal, and Rectal troubles.

Cataract, Gout, Rheumatism, Venereal Ulcers, Asthma, Anemia, Leucemia and Diseases prevalent among women.

EXAMINATION!

To obtain a complete knowledge of any disease and complications having some bearing on treatment, it is necessary to submit to a thorough examination. LABORATORY EXAMINATIONS of the Blood, Urine and Secretions are necessary.

If you have been sick for years, whether you have taken treatment or not, CALL AND CONSULT ME.

PARTIES SOCIAL AND CLUB ACTIVITIES MUSIC

Odd Fellows to Honor Its Old Members

Plans will be discussed at the meeting of Konevic lodge of Odd Fellows at 8 o'clock Monday night in Odd Fellow hall for a celebration to be held soon in honor of those who have been members of Konevic lodge for 50 years. At the present time there are 50 members who have been in for 50 years. A committee probably will be appointed to make arrangements. An Armistice dancing party will be held next Friday night, Nov. 11, at Odd Fellow hall for members of the lodge and their friends. Music will be furnished by Menning's orchestra. Special features have been arranged by the committee in charge. C. J. Jackson and Howard Conn have charge of the party. Staff practice will be held the second and fourth Wednesday of each month, it has been decided. Plans will also be made for a joint district meeting of Odd Fellow lodges from districts No. 19 and 20, to be held Nov. 12 at Chilton. A large number of members of the local Konevic lodge will attend the meeting. Officers of the two districts will meet at 2 o'clock next Saturday afternoon to discuss district business and in the evening lodges of the two districts will meet. Paul C. Webster, grand master, and Oscar Stegmann, grand treasurer, and other representatives will be present at the meeting. Dinner will be served at 6 o'clock to visiting Odd Fellows.

GIRLS MEET AT HIGH SCHOOL GYM FOR PLAY PERIOD

The informal gymnasium class will meet Monday evening at the high school gymnasium under the direction of Miss Agnes Vanneman, recreation director of Appleton Women's club. Volleyball will be played, the first part of the class period. This sport is an especially good exercise and not as strenuous as some of the sports, according to Miss Vanneman. Games and stunts will take up the remainder of the period. Miss Vanneman will direct individual work suitable to the abilities of the members. The class is of a corrective nature.

WEDDINGS

Miss Gertrude Bellew, daughter of Mr. and Mrs. Frank Bellew, 623 S. State-st., and August C. Kools, son of Mr. and Mrs. John Kools, 505 S. Cherry-st., were married at 9 o'clock Saturday morning at St. Mary church. The Rev. Mr. W. J. Fitzmaurice performed the ceremony. Miss Kathryn Bellew was maid of honor and Ben Kools was best man. After the ceremony, a wedding dinner was served at the Conway hotel for about 70 guests. A reception was held Saturday afternoon and evening at the home of the bride's parents for about 100 relatives and friends. After a short wedding trip, Mr. and Mrs. Kools will be at home to their friends at their new home on W. Fourth-st. Out of town guests at the wedding were Mr. and Mrs. Frank Bellew, Jr., and daughter Kathryn Ellen of Minneapolis, Minn.; Donald, John, Kathryn Sharp of Milwaukee; George Bellew and Miss Marie Smith of Milwaukee.

PARTIES

Mr. and Mrs. Fred Peterson, 117 E. Franklin-st., entertained at a dinner Friday evening in the Gold room of the Conway hotel. About 15 were present. The Misses Lenore Schwartz and Estelle Murray, and Mrs. Joseph Bolin entertained five tables at bridge and a shower for Miss Beatrice Triche Friday evening at Appleton Women's club. Prizes were won by Mrs. Arthur Scholl, Menasha, and Mrs. Harold Schultz, Miss Tischer is to be married Nov. 14. Mr. and Mrs. John Mulder, 309 N. Bennett-st., were surprised at a housewarming party Thursday night. Cards and dice were played and prizes were won by William Strej, Charles Abbey, Mrs. Mulder, Mrs. Abbey and Mr. Mulder. Among the guests were Mr. and Mrs. John Ross, Mr. and Mrs. Louis Palm, Mr. and Mrs. William Abbott, Mr. and Mrs. James Berlin, Mr. and Mrs. Charles Abbey, Mr. and Mrs. John Lueders, Mr. and Mrs. William Strej, Mr. and Mrs. Fred Zuehlke and Mr. and Mrs. Albert Schumann. Psi Chi Omega fraternity, 218 S. Oak-st., will entertain at a fall party at 8 o'clock Saturday evening. Decorations will be in characteristic autumn colors. The chaperones will be Dr. and Mrs. G. C. Cast, Prof. William McConagh and Miss Jessie Fite.

CARD PARTIES

Twelve tables were in play at the open card party given Friday afternoon at Columbia hall by the ladies of St. Mary church. Prizes were won by Mrs. Louis Lohman and Mrs. Richard Wenzel at bridge and by Mrs. John Vander Maus and Mrs. Dorn at schafkopf. The next party will be held next Friday afternoon. The ladies of St. Mary church are planning to hold a rummage sale on Nov. 12. The regular weekly Elk skat players will be held at 8 o'clock Monday night in Elk club. All Elk members who play skat are invited.

SECURE COMMUNITY STICKERS AT CHAMBER

Extra window stickers, denoting membership in the Appleton Community Builders, can be secured by members at the chamber of commerce office according to Hagl G. Corbett, chamber secretary. An extra supply was received this week.

INSTALL DISTRICT OFFICERS OF WAR VETS AUXILIARY

Two members of the local Auxiliary of Spanish American War veterans, who were elected as district officers at the district convention a few weeks ago, were installed by Mrs. Lydia Bauer, president of the local auxiliary, at the regular meeting Friday night in Armory G. Mrs. Rose Morris was installed secretary and Mrs. Anna Munchow was installed treasurer. Plans were made for a box social to be held Nov. 18 for members of the auxiliary and for members of C. O. Baer camp. Officers of the lodge are in charge of arrangements. Balloting on candidates also took place at the meeting Friday night. Twenty members were present.

INSPECT WORK OF RELIEF CORPS

Mrs. Mary Liebman of Green Bay inspected the work of the Women's Relief corps, Auxiliary to the Grand Army of the Republic at the regular corps meeting Friday afternoon at Elk club. Forty-eight members, 10 comrades and 11 visitors attended the meeting. A social was held after the business session. Mrs. Theresa Sonntag was chairman of the social committee and was assisted by Mrs. Anna Schueler, Mrs. Frank Sherry, Mrs. Lillian Trentlage, Mrs. Mary Schneider, Mrs. Bertha Schultz, Mrs. Ruth Shee, Miss Bernice Struck, Miss Sarah Smith and Mrs. Anna Scheffler.

CLUB MEETINGS

Mrs. Frank P. Young, 209 E. Kimball-st., will be hostess to the Tourists club at 3:30 Monday afternoon. Mrs. A. H. Thuerer will have charge of the program. A report on the twenty-eighth biennial supreme convention of the P. E. O. Sisterhood held Oct. 4 to 7 at Oklahoma City, Okla., prepared by Miss Ella Loehr of Wauwatosa, a member of Chapter A was read at the meeting of the local sisterhood Friday afternoon at the home of Mrs. J. H. Tippe, 405 N. Drew-st. Mrs. A. E. Receptor and Mrs. F. F. Wheeler, past state presidents, who attended the convention, also gave reports. Mrs. James Wood, 402 E. Washington-st., will be hostess to the Clio club at 7:30 Monday evening. Miss Ada Myers will have charge of the program on Literature, Hieroglyphs and Science. Members of the Novel-History club will be entertained at a dinner at 6 o'clock Monday evening at the home of Miss Edith Ames, 721 E. North-st. A social evening will follow. About 30 persons attended the meeting of the Ever Upward Musical club Friday evening at the home of Miss Marion Ross, 311 Spencer-st. A musical program was given by the Misses Marie Daniel, Marie Burns, Beth Carl, Wilma Zealand, Clara Ross, Mayme Boxie, Alice Wretch, Bernice Grieve, and Babe Jansen, and Daniel Tess. The next meeting of the club will be Thursday, Nov. 17, at the home of Miss Clara Beetz, 721 E. Alton. Evelyn Wretch, Xenah, will have charge of the program. Mrs. F. S. Bradford read from the study book, "Paris On Parade" at the meeting of Over the Teacups club Friday afternoon at the home of Mrs. H. J. Ingold, 733 E. College-ave. Mrs. R. K. Wolter gave a magazine article and Mrs. Charles Baker gave Current Events. The Fiction club will meet at 2:30 Monday afternoon at the home of Mrs. J. R. Denyes, 507 E. Washington-st. Mrs. Charles Reineck will have charge of the program.

LODGE NEWS

The Red Cross degree was conferred at the meeting of Appleton Commandery No. 29 of Knights Templar Friday night in Masonic temple. A social was held after the business session. A regular meeting of Fidelity chapter, Order of Eastern Star, will be held at 7:30 next Wednesday evening in Masonic temple. Regular business is scheduled. A regular meeting of George D. Eggleston post of the Grand Army of the Republic was held Friday afternoon at Elk hall. No special business was discussed. A regular business meeting of Pythian Sisters will be held at 7:30 Monday night in Castle hall. Plans to serve a banquet for Knights of Pythias next Thursday night will be discussed. Other business also is scheduled. Ladies of Sir Knights of the Appleton Commandery of Knights Templar held their first regular meeting of the season Friday evening in Masonic temple. This was the regular social meeting.

CHURCH SOCIETIES

Twelve members of the Epworth League of the German Methodist Episcopal church attended the meeting Friday night at the home of Edward Greinert, 1102 N. Division-st. The Rev. A. C. Panzian, pastor of the church, gave a talk on Character. A musical program has been arranged for the meeting of the Congregational club at 5:30 Sunday evening in the church parlors. The club is composed of Congregational students who are attending Lawrence college. Stanley Norton and Ray Menning will lead a discussion on campus problems. Three officers according to Hagl G. Corbett, chamber secretary. An extra supply was received this week.

How To Play Bridge

By Milton C. Work Yesterday's hands were the last two of a series of ten held by West, South (Dealer) has bid one Diamond; should West bid, double or pass. YESTERDAY'S HANDS

No. 9	No. 10
A-K-5-2	A-K-5-2
Q-7-6-3	Q-7-6-3
K-J-9	K-J-9
2	2

No. 9. With this hand I would double; the worthless singleton in Clubs should eliminate any thought of an immediate No Trump in spite of the two stoppers in the adverse suit, so the choice would be between a double and a Heart. The hand has all the essentials for a Heart bid, but the double allows East, who may have four or five weak Spades and only one or two Hearts, to name Spades; and there may be game in Spades and not in Hearts. If East

No. 10. Again I would double. This hand presents the same Major reason for making 1♣ Doubles as No. 9, and again if I received a Club answer instead of the hoped-for Major answer, I would bid the Hearts in spite of my support in Clubs; but, of course, I would not bid No Trumps in any event on account of the Diamond weakness. I believe that the informationally double properly used, more than any other declaration, makes it possible for partners to reach the contract which they would have selected had they actually seen each other's cards. John F. Dille Co.

St. Elizabeth Club To Entertain New Members

St. Elizabeth club will hold its annual membership banquet at 6:30 Thursday evening in the Crystal room of the Conway hotel. New members received in the drive conducted by the club during the past two weeks will be guests. All members of the club are invited. A program will be arranged to follow the banquet after which bridge and schafkopf will be played. Mrs. William Nemachek, chairman of the membership drive, is in charge of arrangements and will be assisted by her co-workers, Mrs. F. Heinritz, Mrs. L. Lohman, Mrs. Thomas O'Keefe, Mrs. James Monaghan, Mrs. John Roach, Mrs. O. J. O'Connor, Mrs. L. F. Woelz, Mrs. Charles Green, Mrs. F. F. Wetengel, Mrs. John Morgan, Mrs. Arthur Rossmessel, Mrs. August Arndt, Mrs. Donald Lehman, Mrs. Walter Driscoll, Mrs. J. Ornsteln, Mrs. P. A. Paulsen, Mrs. James Ballet, Mrs. Karl Schuetter, Mrs. George Schmidt, Mrs. Chris Roemer, Mrs. George T. Prim, Mrs. J. J. Plank, Mrs. Norbert Roemer, Mrs. Joseph Jones, Miss Ross Haug, Miss Virvan Morrow, Mrs. George Hugreiver, Mrs. A. G. Koch, Mrs. Henry Reuter, Mrs. Frank Kranhold, Miss Delia Schmidt, Mrs. Paul Schmidt of Combined Locks, Mrs. A. Minkebise of Kaukauna and Mrs. Bell of Little Chute. The regular semi-monthly business meeting of St. Elizabeth club will be held at 2:30 Monday afternoon in Catholic home, Mrs. William Nemachek, chairman of the membership drive will give a report. A social will be held following the business session. Bridge and schafkopf will be played. Mrs. Charles Baldwin is chairman of the committee in charge of the social and will be assisted by Miss Mable Burke, Mrs. John Ballet, Mrs. James Ballet, Mrs. Stephen Ballet and Mrs. Bauer. Members of the club will be called upon to serve on social committees during the year alphabetically, it was announced. Since June 1 the free bed at St. Elizabeth hospital, which is sponsored by the St. Elizabeth club, has been occupied continuously, the club has announced. Eight patients were cared for 136 days. START PROCEEDINGS AGAINST BUS LINES

Involuntary bankruptcy proceedings in federal court have been started against the American Coach Lines, which formerly operated the Brown buses through Appleton on the Milwaukee-Green Bay route. The company made assignments through the state courts under date of Oct. 19, but when a new petition was filed in the federal court the case was transferred. The petitioning creditors are Eckland Brothers Co., Minneapolis, with a claim of \$3,772; the Bolene Refining company with a claim of \$5; and the Page Oil company of Milwaukee with a claim of \$3,240. Besides operating from Milwaukee to Green Bay the company operated a number of Milwaukee suburban buses and made its headquarters in that city. Will Give Sermon

The Rev. E. L. Pettus, pastor of the Christian church at Minneapolis, Minn., will deliver a sermon at 8 o'clock Sunday night at Salvation army hall. His subject will be Why Peter Denied the Lord. John Letter, superintendent of mails at the Appleton post office is making his annual inspection of city delivery routes. The inspections are made twice a year, in May and October being required by the postal department.

BEEKEEPERS CONVENE AT MILWAUKEE DEC. 8

Milwaukee.—(P)—Problems in sales promotion and distribution of honey will be considered by the Wisconsin Beekeepers Association during the session of its 49th annual convention here Dec. 8-9. James Gwin, president of the association, and newly appointed honey marketing specialist, and C. D. Adams, of the state department of markets, who is supervising the work in connection with the new marketing agent, will be present at this meeting. This work, as it is now planned, will be outlined, and suggestions as to the best methods for carrying on the work will be asked for and discussed. W. A. Duffy, commissioner of agriculture, will speak on "Cooperative Beekeeping," and E. L. Chambers, state entomologist, will give a progress report on the area cleanup campaign. F. R. Root, national authority on beekeeping matters, will relate some of his experiences while lecturing on bees and bee behavior with chauntauqs during the past several seasons. Miss Mary Barber, head of the home economics department of the Kellogg Company, Battle Creek, Michigan, will give a talk and demonstration on the "Uses of Honey as a Food." E. W. Atkins, of the G. E. Lewis Co., Watertown, Wisconsin, will talk on the subject of "Some Honey Sales Plans. THREE SPEEDERS PAY FINES IN COURT HERE

Three speeders were fined \$10 and costs each by Judge Theodore Berg in municipal court Friday afternoon when they pleaded guilty to the charges against them. Edwin Kool, 527 E. Atlantic-st., was arrested Thursday evening for traveling 34 miles per hour on E. Wisconsin-ave and J. H. Wetterding, Menasha, was arrested Thursday night for traveling 33 miles per hour on E. Wisconsin-ave. Both men were arrested by Fred Arndt, motorcycle officer. Clarence Hoffensperger, 518 E. Lincoln-st., was arrested by Gus Hierskorn, motorcycle officer, for traveling 40 miles an hour on W. Foster-st. Thursday morning.

SOCIAL CALENDAR FOR MONDAY

2:30 St. Elizabeth club, report on membership drive and social. Catholic home. 2:30 Fiction club, with Mrs. J. R. Denyes, 507 E. Washington-st. Mrs. Charles Reineck, program. 3:30 Tourist club, with Mrs. Frank P. Young, 209 E. Kimball-st. Mrs. A. H. Thuerer, program. 7:30 Pythian Sisters, regular business meeting, Castle hall. 8:00 Konevic lodge of Odd Fellows, business meeting, Odd Fellow hall. A GOOD THING—DON'T MISS IT

These reliable remedies have helped millions. Sold everywhere. adv.

DESCRIBES CARE OF SHRUBS IN WINTER

Plant Expert Says Flowers May Be Planted Now and Live Through Winter

Madison.—(P)—Flowers and shrubs may still be planted with hope of living through the winter, says J. G. Moore of the College of Agriculture. Early flowering perennials are best set out in the fall, he says, but he does not recommend that deciduous trees and shrubs be planted at this time of year, because Wisconsin winters are so severe that there is great liability of heavy losses. "In planting bulbs in borders, equal depth of planting is not necessary," Mr. Moore says. "Spade the soil deep, and plant the bulbs relatively deep. The tops of the larger ones should be two and one-half inches to five inches below the surface of the soil, and the small ones an inch and a half to two inches. If one desires to get mass effects by planting in beds, it is a good plan to remove the top soil almost as deep as the bulbs are to be set. "Do not mulch the bulbs now. It is preferable to put on the protective material after the surface soil has frozen about an inch deep, then a layer of leaves, marsh hay, clean straw, lawn clippings or shredded corn stalks should be put over the bulbs. GOOD COVERING

"Leaves make a very good covering for bulb plantings and when they have served their purpose, can be put on the garden and plowed or spaded under, or go into the compost heap to furnish a supply of leaf mold for the garden or to use in potting-house plants. "One of the fall jobs found in practically all homes where the home grounds have been improved by planting, is providing winter protection for some of the more tender plants. This protection is ordinarily some kind of cover, often popularly spoken of as a mulch. There is some difference of opinion as to the exact function of the mulch in preventing winter injury and therefore a difference of opinion as to what constitutes the best practice. The absence of winter injury is not entirely a matter of efficiency of the protective covering. "Excessive cold may, of course, kill plants but it is not the most important factor in winter injury," says Mr. Moore. "Drying winds are particularly injurious to plants retaining their foliage. Alternate freezing and thawing of the surface soil both in late fall and early spring, particularly the latter, is often responsible for loss of plants. Water standing around the crowns or freezing in the crowns of those carrying their leaves is almost sure to prove fatal."

OUTAGAMIE FARMERS WIN \$25 AT POTATO EXHIBIT

Outagamie co farmers who exhibited potatoes at the annual potato show at Rhineclander this week took about \$25 in prize money, ranking eighth in the exhibiting counties with a percentage of 81.3. Those who had potatoes on exhibit were: George Cuff, Clair Cuff, Anton Schuh, William Lippold and George McDermoth of the town of Horton; Arthur Kauffman, Wilfred Bottel, R. R. Griswold, Edward Roesser, Arnold Roessler and William Erbeha, town of Dale; and Hans Anderson, town of Greenville. These men also attended the annual convention of the Wisconsin Potato Growers association which was held in connection with the show. Mrs. Ella Schroeder is visiting with her sister Mrs. Frank Schultz of Antigo. Mrs. Schultz has been ill for some time and Mrs. Schroeder will aid in caring for her. R. E. Bonini who has been visiting in Appleton for the past two weeks returned to Milwaukee Friday night. He is employed by the Plankinton-Globe Packing company.

Western class rate investigation. Interstate Commission Docket 17,000, and experts 87, part 2, will be one of the principal questions of the session. Other discussions will include one on any part of the Hoch-Smith Docket 17,000, the investigation of which now is underway; and one on the application from the carriers, now pending before the Wisconsin railroad commission, for increase in intrastate rates on iron and steel and for authorization to cancel less carload lots on intrastate rates. Developments to date in the lake-cargo coal case will be reviewed and any rate situation that affects the state in a general way will be discussed at the proposal of a member. Chicken Supper Sunday 50c, St. Mary's Church, Kaukauna.

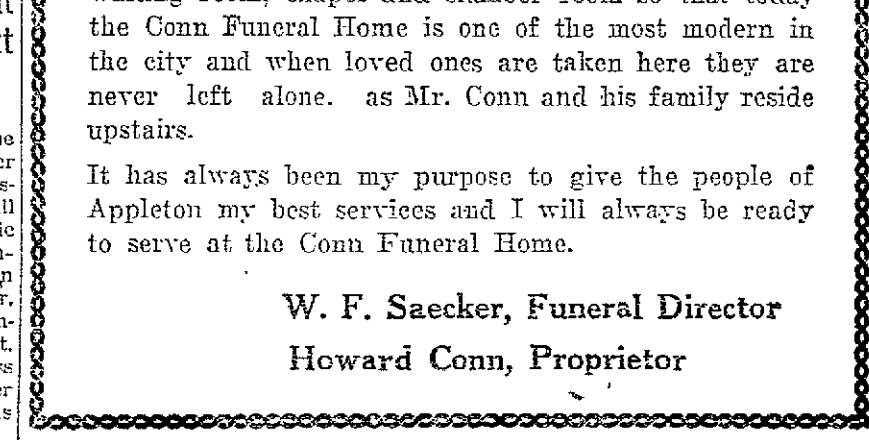

An Announcement

By W. F. Saecker

When I sold my furniture business I immediately associated myself with Mr. Howard Conn at the Conn Funeral Home at Oneida and Franklin Streets, and ran an announcement in this paper to that effect. I have been asked so many times as to whether or not I am still in the undertaking business that I am again using the columns of this paper to announce to the people of this community, that I am still associated with Mr. Conn at the Conn Funeral Home as a funeral director.

The home has recently been remodeled, an entire new font having been built and a great many interior improvements have also been made. The home now has a waiting room, chapel and slumber room so that today the Conn Funeral Home is one of the most modern in the city and when loved ones are taken here they are never left alone. As Mr. Conn and his family reside upstairs. It has always been my purpose to give the people of Appleton my best services and I will always be ready to serve at the Conn Funeral Home.

W. F. Saecker, Funeral Director Howard Conn, Proprietor

KAUKAUNA PICTURES USED IN MAGAZINE

"Construction Methods" Use Photos of Important Improvements at Kaukauna

Kaukauna—Meadie Richardson, local photographer, was honored with the appearance of two photographs taken by him in the November issue of Construction Methods, a monthly pictorial of field practice and equipment. Both are pictures of the river wall recently completed by the government at Kaukauna. One of them is used for the cover design while the other occupies close to a full page in the middle of the magazine and is accompanied by a description of the work.

The article had the following to say about the wall: "A compact concrete plant built on a large barge has been used in constructing a concrete retaining wall containing more than 4,000 cubic yards of concrete in a period of four months in the Fox River valley at Kaukauna. The outfit, operated by the U. S. Engineering department under the direction of Major John J. Kingman, district engineer, Nelson W. Wrightman, junior engineer, has been in actual charge of the work.

"Both of the pictures show the outfit at work. The plant consists of an Inley lower sixty feet in height, with the necessary chute, a material hopper, a one half yard mixer and a derrick. The materials were loaded on barges and towed to the plant by a tug. The derrick transferred the aggregates from the barges to the hopper and also assisted in setting and removing the forms. These forms were built of wood in sections fifty feet long and about six feet wide, three sections being required to complete one wall section."

"With this outfit and a crew of about thirty-one men, a wall 1,117 feet in length and averaging twenty feet in height was built. The floating plant handled the entire job without difficulty."

The editor of the New York publication complimented Mr. Richardson upon the pictures. A year ago Mr. Richardson had two pictures of the new Wisconsin-ave bridge published in the magazine but this is the first time that one has been used for a cover design.

KAUKAUNA ALLEYS LOSE TO LITTLE CHUTE TEAM

Kaukauna—The Kaukauna Alleys lost three straight games to Little Chute in a Fox River Valley Bowling League match at Little Chute Thursday evening. Kaukauna shot 2422 while the Hollanders make 2605.

Casey rolled 564 for high series score and shot 225 for individual honors. G. Mauei was high for Kaukauna with 553.

LEGION AUXILIARY INSTALLS OFFICERS

Seymour Ladies Entertain District Secretary-treasurer at Installation

Seymour—Officers were installed at the regular meeting of the Legion auxiliary held on Nov. 2. The officers are as follows: president, Mrs. Katharine Hutter; first vice president, Mrs. Dorothy Otto; second vice president, Mrs. Linda Laatsch; chaplain, Miss Eleanor Tubbs; sergeant, at arms, Mrs. Grace Mc Bain; historian, Mrs. Ruby Siebert; secretary, Miss Bernice Tubbs; publicity officer, Mrs. Nettie Van Vuren.

Mrs. Harry Sasse district secretary-treasurer of Green Bay was a guest at this meeting. After the business session lunch was served by Mrs. Linda Laatsch, Mrs. Emma Pasch and Mrs. Elizabeth Zengewich.

Daniel Seefeld and Miss Aldora Krahn, daughter of Mr. and Mrs. Charles Krahn were married on Wednesday afternoon at the Lutheran parsonage. The Rev. Fred Ohlrogge performed the ceremony.

LITTLE CHUTE TEAM WILL PLAY DE PERE

Hard Fought Game Is Expected as Elevens Played Tie Game in First Tilt

Little Chute—The "Flying Dutchmen" football team of this village will journey to De Pere Sunday to play the American Legion team of that city. The local team played a tie with the DePere team several weeks ago.

Captain Vander Loop and Willard Van Handle, two star players of the local team, will be unable to play because of injuries received in the Merrill game last Sunday. The local players have received their new jerseys which are cardinal with white letters and numerals.

The lineup for Sunday will be: R. Peters and Jansen, centers; Drissson and H. Versteegen, right ends; Vander Wyt and J. Widenberg, right tackles; E. Milton, V. Harjes and E. Jansen, right guards; S. Widenberg and N. Langedyk, left guards; P. Vander Loop, F. Peeters and N. Jansen, left tackles; Van Handle and Weyenberg, ends; Kilgas and Hartjes, quarterbacks; T. Verbeten and T. Vander Loop, right halfbacks; Hoerden, fullback; H. Harjes, left halfback.

DU PONT'S SON WILL BECOME AN AVIATOR

Middle-aged Italian Inventor Secures Recognition After 16 Years

Wilmington, Del.—A strippling son of one of America's richest families quitting business life to become a cadet in the air service of the U. S. Army.

A middle-aged little Italian inventor winning at last, after 16 years of seemingly futile struggle, the recognition and financial backing essential to a potentially just success.

These twin bits of romance mark the adoption of aviation into the family of enterprises engaging the wealth and personal interest of the DuPonts, Delaware multi-millionaires and industrialists.

ATTEMPT TO PUBLISH FARMERS' PRICE LIST

Milwaukee—(P)—An attempt to influence implement manufacturers to publish resale price lists for farm machinery probably will be made at the convention of the Wisconsin Implement Dealers here Dec. 6-8. This plan, if carried out, would eliminate many of the sore spots of the industry, leading dealers of the state believe, such as price cutting, curbstone dealers, and "cutthroat" competition.

Implement dealers have been attempting for some time to have published price lists such as now are used by the automotive industry and many others.

Surveys made by the Badger association reveal that Wisconsin farmers during the past year bought more machinery than at any time during the past four years. This is taken as an indication that the economic condition of the Wisconsin farmer is rapidly being bettered.

GOOD FOR THE KIDDIES

Bellevue ICE CREAM
"The Perfect Food"

Ice Cream is now acknowledged an ideal food. Leading health authorities and dietitians say: Eat plentifully of ice cream—let the children have it unstintingly!

Ice Cream is nourishing, easily digested and refreshing.

For the purest and richest in ice cream, be sure you ask for and get Bellevue Ice Cream. High butter fat value, pure flavorings, clean manufacture.

The Bellevue dealer handles all our flavors—a wide variety. Try them all to see how good ice cream can constantly be.

LITTLE CHUTE TEAM WILL PLAY DE PERE

Hard Fought Game Is Expected as Elevens Played Tie Game in First Tilt

Little Chute—The "Flying Dutchmen" football team of this village will journey to De Pere Sunday to play the American Legion team of that city. The local team played a tie with the DePere team several weeks ago.

Captain Vander Loop and Willard Van Handle, two star players of the local team, will be unable to play because of injuries received in the Merrill game last Sunday. The local players have received their new jerseys which are cardinal with white letters and numerals.

The lineup for Sunday will be: R. Peters and Jansen, centers; Drissson and H. Versteegen, right ends; Vander Wyt and J. Widenberg, right tackles; E. Milton, V. Harjes and E. Jansen, right guards; S. Widenberg and N. Langedyk, left guards; P. Vander Loop, F. Peeters and N. Jansen, left tackles; Van Handle and Weyenberg, ends; Kilgas and Hartjes, quarterbacks; T. Verbeten and T. Vander Loop, right halfbacks; Hoerden, fullback; H. Harjes, left halfback.

DU PONT'S SON WILL BECOME AN AVIATOR

Middle-aged Italian Inventor Secures Recognition After 16 Years

Wilmington, Del.—A strippling son of one of America's richest families quitting business life to become a cadet in the air service of the U. S. Army.

A middle-aged little Italian inventor winning at last, after 16 years of seemingly futile struggle, the recognition and financial backing essential to a potentially just success.

These twin bits of romance mark the adoption of aviation into the family of enterprises engaging the wealth and personal interest of the DuPonts, Delaware multi-millionaires and industrialists.

ATTEMPT TO PUBLISH FARMERS' PRICE LIST

Milwaukee—(P)—An attempt to influence implement manufacturers to publish resale price lists for farm machinery probably will be made at the convention of the Wisconsin Implement Dealers here Dec. 6-8. This plan, if carried out, would eliminate many of the sore spots of the industry, leading dealers of the state believe, such as price cutting, curbstone dealers, and "cutthroat" competition.

Implement dealers have been attempting for some time to have published price lists such as now are used by the automotive industry and many others.

Surveys made by the Badger association reveal that Wisconsin farmers during the past year bought more machinery than at any time during the past four years. This is taken as an indication that the economic condition of the Wisconsin farmer is rapidly being bettered.

GOOD FOR THE KIDDIES

Bellevue ICE CREAM
"The Perfect Food"

Ice Cream is now acknowledged an ideal food. Leading health authorities and dietitians say: Eat plentifully of ice cream—let the children have it unstintingly!

Ice Cream is nourishing, easily digested and refreshing.

For the purest and richest in ice cream, be sure you ask for and get Bellevue Ice Cream. High butter fat value, pure flavorings, clean manufacture.

The Bellevue dealer handles all our flavors—a wide variety. Try them all to see how good ice cream can constantly be.

LEGAL NOTICES

NOTICE OF SHERIFF'S SALE IN FORECLOSURE
STATE OF WISCONSIN, MUNICIPAL COURT OF OUTAGAMIE COUNTY.
August Maljahn, Plaintiff, vs. Albert Johnson and Mary Johnson, his wife, Defendants.

By virtue of a judgment of foreclosure and sale made and entered in the said court on the 5th day of October A. D. 1927, the undersigned Sheriff of Outagamie County, Wisconsin, will sell at ten o'clock in the forenoon of that day, the real estate and mortgaged premises directed by said judgment to be sold and therein described as follows, to-wit: "Lot One (1) and the North-east quarter of the North-east quarter of Section Thirty-one (31), in Township numbered Twenty-four (24), North of Range Nineteen (19) East, containing forty-five (45) acres of land, more or less according to government survey, all situated and lying in the County of Outagamie, State of Wisconsin."

Terms of sale cash.

Dated this 8th day of October A. D. 1927.

OTTO H. ZUEHLE, Sheriff of Outagamie County, Wis.
FRANCIS J. ROONEY, Plaintiff's Attorney, Appleton, Wis.

TWENTY PUPILS ON SCHOOL HONOR ROLL

30 Pupils at Sacred Heart Are Awarded Spelling Certificates.

Reports for the first term were distributed this week at the Sacred Heart school. Grades are given out every second month at the school. Those pupils who made the "excellent" record are:

Grade 8—Catherine Theisen, Irene Goss, and Irene Wilz; Grade 7—Cyril Lippert, Margaret Overesch, Georgiana Parson, Leona De Groot and Stella Heersch; Grade 6—Marie Stark, Rita Theisen, and Catherine Haritz; Grade 5—Mildred Boehnlein and Florence Thiel; Grade 4—Esther Vander Linden, Jane Becher, Berenice Dresang, Maurice Theisen and Madeline De Groot; Grade 3—Willard Meier, Mark Childs, Cella Brumm, Florence Stadler, Virginit DeYoung, and Harold Knabenbauer.

A perfect spelling certificate was awarded to each pupil for 20 perfect spelling lessons. Those who received the certificates were:

Leona De Groot, Eugene De Young, Adeline Sommer, Roman Wassenberg, Lucille De Groot, Lucille Schuler, Catherine Theisen, Camille Verbrick, Irene Wilz, Evelyn Ambrosius, Margaret Overesch, Cyril Lippert, Catherine Haritz, Mildred Schink, Genieve Meier, Carlton Knight, Gladys Griesbach, Marie Stark, Leona Grassl, Mildred Boehnlein, Dorothy Kraft.

STAGE And SCREEN

ESTHER RALSTON GIVES THE WORKING GIRL GOOD BREAK
In playing the part of Janet Wells, private secretary to an absent-minded business man, in "Figures Don't Lie," at Fischers Appleton Theatre Saturday and Sunday Esther Ralston takes a role that she has always wanted to portray. The "working girl" theme has always been of special interest to the blonde Paramount star, she declares, and she has wanted for a long time to portray such a girl.

"I wanted to see the working girl get a fair break in pictures," Miss Ralston said. "You see I worked mighty hard as a youngster although I never was a stenographer. I have seen the working girl ridiculed and burlesqued and I didn't feel that she was getting fair treatment."

"When I was cast as a private secretary in 'Figures Don't Lie' I immediately wanted to know whether I was to portray a dumb doll or an intelligent worker. I was delighted to find that Janet Wells was business-like and efficient. I believe that is a true picture of the average working girl."

"LES MISERABLES" CALLED HUGO'S GREATEST WORK
The new version of "Les Miserables" which was recently purchased by Universal for the entire world, the

Continent excepted, promises to be one of the most stupendous films ever shown, judging from the reports of the press on its premiere in Paris, London and New York.

"Les Miserables" is regarded by many people as by far the greatest work Victor Hugo, and the film, according to Le Matin, "pours out the intense generosity, wide charity, vehement pity and magnificent revolt against 'social damnation'—all that makes Victor Hugo's novel a masterpiece. Humanity is indeed the essence of the film, which will engrave itself on the screens throughout the world—an outstanding fact in our national film production."

"As you will see, make-up is a much more complicated art than one can imagine. But, when after weeks and perhaps months of study, one has been able to present a character, to make him live, if I may say so, so as to be able to interpret him to the public—well, I can assure you, that one is well rewarded then for all one's trouble."

At Fischers Appleton Theatre Monday, Tuesday and Wednesday.

FAMILY PORTRAIT
ALBUM IS COMING
BACK INTO FAVOR

New Books Are of Modern
Type and Have Much Nicer
Appearance

"The family portrait album is coming back," according to E. H. Harwood of the Harwood Studios, 108 W. Collegeave. "The new book will be of the modern type and better looking from an artistic standpoint with photographs tending a bit more to the portrait type. People have always wanted pictures of their families and though many had no albums because it 'wasn't done' they have saved photos and will readily adapt them to the new album."

Word has been received by Mr. Harwood that several of his exhibits at the national portrait salon of the Photographers' association of America have been selected for places in the permanent salon of the association along with others from all over the world. The photographs were entered in competition with representative pictures from every state in this country and all the leading European nations.

The portraits which were given national recognition were of Maj. Charles Green, Allan Harwood and A. Kaminsky. They have been on display at the Harwood studios for several months. Prize winning and national recognition is not entirely new to Mr. Harwood, however, for he has been receiving awards regularly for many years.

Mr. Harwood is a member of the Photographers' association of America, an organization which has raised over \$1,000,000 to educate the people of this country to the best features of good photography. Educational advertisements are being run in all leading magazines of the United States and will continue to be run indefinitely.

In speaking of the return of albums Mr. Harwood said that a few years ago pictures were bought for the elaborate folders they were placed in and that often actual photography was neglected. Since then these same people have found that half a dozen portraits with large folders are out of place on a piano or table and that they take up too much room. A flat modern album that has loose leaves and can be placed on a table, out of the way, and yet is pleasing to the eye, again is coming into favor.

COCKLE FINISH IS
DEMANDED IN BEST
OF NEW STATIONERY

Fox River Paper Company Official Says Trend Is Comparatively Recent

Cockle finish paper is in greatest demand for stationery, both business and personal, in the opinion of Edward Gambaky of the Fox River Paper company. The trend is recent, however, for several years ago few business houses or individuals used that type of stationery.

The average persons, in describing cockle finish paper, might say that it looked as if it had been rain on and then dried. The process is achieved by a special method of drying while the paper is in process of manufacture. Colors are selected in cockle finish paper, especially when it is used for stationery purposes.

Cheap stationery found on the market selling at a few cents a box is also a cheap grade of paper with a finish designed to sell the whole article. Lined and ripple finished articles can usually be depended upon to be of the cheaper grade. Cheap grade bond papers are of small rag content, the remaining material being sulphite.

The best paper for ordinary printing uses is plain, smooth paper without a gloss finish. On the other hand the flat writing papers with a glossy, high surface are the kind often used in school work and for printing when a good clear surface is wanted for half-tone work. Ledger is a smooth, flat finish paper which is uniform throughout the country.

Colored papers are not used very extensively for stationery or letter heads by manufacturing companies and business houses being primarily preferred for interdepartmental communication and office forms.

Goldfish and certain varieties of stickleback if put into a pond or stream will wage successful war against mosquitoes.

Babson Selects Best Line
Of Farming To Get Profit

Babson Park, Mass.—A number of statements have recently been made by Mr. Babson on the agricultural conditions in certain sections of the country. He has been asked which sections of the country and which agricultural lines give the most promise to the farmer and livestock raiser. His answer is as follows:

"Farming should be allowed to work out its future through the survival of the most efficient the same as must the automobile, textile, and steel businesses. Farming is subject to the same temptations and opportunities as other lines, and the farmers must expect to suffer or prosper according to their industry, judgment, and progressiveness. On the other hand, it should be recognized that the prosperity of all of us is vitally dependent upon the prosperity of the farmers."

"Information which I have received from 73 leading centers, representing all sections of the United States, leads me to believe that the farmers of the country, as a whole, are making more money. At any rate, only a small percentage of agricultural workers are losing money today. The information that I have clearly shows that out of 73 localities, 63 register farming as profitable, both to the man who tills the soil and the man who raises livestock; four localities limit their profits to the livestock raiser, and only 11 localities indicate that their farmers are not making money. The majority of these latter are behind largely because of poor weather conditions."

MUST BE ORGANIZED
"Two facts, however, stand out strongly: The greatest prosperity has come where the farmers are organized to market their own produce, and where the farmers are adopting progressive methods and labor saving machinery. Big business has learned the value and necessity of cooperation. It is also prospering through the use of labor-saving machinery. Millions of dollars could be saved by the farmers of the cotton belt if they could market their crops themselves through cooperative associations. In the case of cotton such associations can act with the farmer to improve the grades; can market for the most advantageous price; and when there is an extra large crop of cotton an increased demand can easily be stimulated through advertising so that people will use more cotton and replenish their cotton stocks. The demand for fruits, nuts, vegetables, and dairy products could thus be stimulated even more than at present. The demand for wheat, on the other hand, cannot be easily stimulated as people will eat only so much bread and, as they become more prosperous, tend to cut down rather than increase their per capita use of wheat."

"As I have stated many times before, most farmers use too much man labor and not enough work-stock and labor-saving equipment. A farm is only one form of factory and hence requires the most efficient equipment and management."

POULTRY RAISING
"If I were to become a farmer today, dairying and poultry raising would appeal to me the most. My study shows that dairying is one of the best paying lines and one which has openings in all parts of the country. There are also excellent opportunities for the raising of poultry in most sections. With many crops the turnover is but once a year with the money coming in shortly after harvest time, while dairying and poultry raising have the advantage of producing a steady income throughout the year."

"Of course many other lines of agriculture have advantages. Many sections of the country are adapted to the growing of fruit and modern methods of packing and transportation give a country-wide market. The livestock situation is quite favorable in the southern and central states. In addition to the improved conditions in the northwest, reports indicate that market gardeners near large cities have been doing especially well. They are assured good markets and stand a fair chance of making a profit on their land."

SHOULD BE THANKFUL
"Considering the lateness of the crop, especially the corn crop in the middle west, the American people have a good deal to be thankful for on the coming Thanksgiving Day. There has not been a year for a long time when the farmers were so late in getting the seed into the ground on account of excessive rains and the cold spring. An early freeze would have cost this country hundreds of millions of dollars. As it is, this entire country and Canada have enjoyed a beautiful fall which has enabled the crops to mature in nearly all sections."

"As a result of the favorable weather conditions, the United States should this year produce crops to a total exceeding \$10,000,000,000, while Canada will add to this amount another \$900,000,000. This means a total of \$10,900,000,000 will be added to the gross wealth of America during 1927. Furthermore if we include Mexico and Central America there would be much more to be added. Of course, this is not net wealth as from this amount must be

deducted what has been consumed, wasted and otherwise destroyed. Even after this has been done there still will show a net gain for which the people of the United States and Canada should be duly thankful on Thanksgiving Day."

**LUMBER SALES SLOW;
PROSPECTS ARE GOOD**
In its weekly review of the lumber market, the American Lumberman, Chicago, says:
Business in softwood lumber continues rather slow for this season, but so far this year the principal mills of the country have shipped more lumber than they produced. Shipments of the hardwood mills have exceeded their output to a considerably greater extent.

The impression gains ground that the destruction caused by the Mississippi Valley floods, the losses arising from the coal strike, and the holdings up about a million orders for motor cars until announcements of new models clarify the competitive situation, are together acting as powerful brakes on business activity. Sales of lumber respectively for home building; mine timbers; automobile body building and crating are directly affected, and those for oil field work and steel mill uses are indirectly affected.

Happy, early developments are calculated to result in a degree of activity which will more than offset the present slowness. The Federal executive has been preparing plans whereby Congress can speedily start Mississippi rehabilitation and control work; the mine difficulties are at last on an arbitration basis, and already about four hundred thousand orders have been booked for the new Ford car. All these prospective events point to a strong upward turn in the lumber trade.

The better part of present demand for building items is coming from small towns and farms. While the farmers are not yet buying as much as they were expected to, they are providing a good volume. The small cities and suburban towns not included in building permit reports are, according to a recent survey, doing an immense amount of construction and their activity goes far to offset the small decline in city building. In the cities, the trend is toward adjustments that will result in construction costs on a slightly lower level and release a large volume of new contracts.

Most retailers of lumber and industrial consumers are taking only what material they need for immediate use. Their general desire is to keep their funds liquid, but many lumber sellers by forcing sales have weakened prices of both hardwoods and softwoods. Returns of manufacture are at so low a point that the industry is developing a strong tendency to curtail output. Foresighted lumbermen realize that doing so will enable them to get more reasonable prices as soon as buyers become more liberal with their orders.

VARIETY OF HOUSES
BUILT IN APPLETON
DURING SUMMERTIME

Spanish Type, With High
Roof, Proved to Be Most
Popular Design

A variety of houses have been built in Appleton this year, according to Henry Boldt, local contractor. Houses of the Spanish type, with the high, peaked roof, are most numerous. There have been many houses of the so-called "common" type constructed by persons who recently purchased property on the outskirts of the city.

In some localities it is said there is a preference for a bungalow type house with a single bedroom or two bedrooms upstairs, making three in the entire house. The Spanish type houses with the high roofs are constructed so as to give all the upstairs space possible, by doing away with sloping sides in bedrooms.

Many of the houses now being built sacrifice the dining rooms or kitchen for other larger rooms. Diner cities are coming into favor to displace the large dining room while the kitchenette is as popular as in city apartments.

New houses are now being built by young persons and are as modern as the owners. Many middle aged people are buying homes for when children have gone to college or are married there is no need for a large residence. Older couples who have finally been able to buy a home look around for some place that satisfies all their demands and then make the purchase outright. Many homes are built by real estate companies or contractors and later sold.

The tendency in Appleton is to frame houses in preference to brick or stone structures. On the other hand brick veneer houses are much in favor in certain cities, Milwaukee, for instance, where a great number of new homes are of that type. Stucco finished houses also are favored. Special insulating materials are being used by most builders to keep out the cold of winter and the heat of summer.

HORSE DOZES AND FALLS
FROM WHARF INTO BARGE

London—(AP)—While waiting for a load on Bridge Wharf, Blackfriars, Old Jerry, a cart horse, fell asleep and toppled over the wharf into a barge below.

He woke up with a start to find himself jammed in the narrow hatch opening, with a cart on top of him. Apart from a few scratches he was not hurt, but the more he tried to kick himself free, the tighter he was jammed. Finally a crane lifted him 20 feet back onto the dock.

NEW LONDON-CLINTONVILLE-WAUPACA NEARBY TOWNS

NEW LONDON CAGE SEASON WILL OPEN EARLY NEXT MONTH

Eleven Games Scheduled for Red and White—First With Manawa Five

Special to Post-Crescent
New London—New London's first game of basketball this year will be played on Dec. 2, at New London, according to the schedule for the season announced. Eleven games will be about evenly divided between New London and other places. The schedule of games follows:
Manawa at New London, Dec. 2; Waupaca at Clintonville, Dec. 15; Waupaca at New London, Dec. 20; Shawano at New London, Jan. 13; Seymour at New London, Jan. 20; West De Pere at New London, Feb. 7; Clintonville at New London, Feb. 14; Menasha at New London, Feb. 21.
New London high school will this year play its tournament games at Seymour, instead of at Menasha, having been transferred from the Menasha tournament to the Seymour district. The change has been made because of the fact that the Oshkosh tournament games will not be played this year and many of the games formerly played off there have been given to the Menasha tournament. The tournament games will be played at Shawano on March 15, 16 and 17. Basketball material for this year looks promising, with the number of second year men available who are now in the football lineup. Seims, Schert, Lang, Kische and Werner are all regulars from last year's basketball season, whose excellent showing in the tournament games probably will stand them in good stead for this season's game. Training for basketball will start soon after the football season is played on Nov. 11, which will officially close the football season.

NEW LONDON SOCIETY

Special to Post-Crescent
New London—Mrs. John Croak entertained the members of the Leisure Hour club at her home Thursday evening, with Mrs. Frank Meyers as assisting hostess. Five hundred were played during the evening. Mrs. Henry McDaniel's winning first prize, D. B. Ike Peepke, second, and Mrs. D. B. Egan, consolation. Mrs. Henry McDaniel will be hostess to the club at the next meeting Nov. 17.
The Neighborhood Bridge club met at the home of Mrs. J. W. Monsted Friday afternoon. Guests for the afternoon were Mrs. R. J. McMahon and Mrs. F. R. Smith.
Mrs. Leon Neveiden entertained a few friends informally at her home on Nov. 4. Thursday afternoon in honor of Miss Dorothy Stubbenvoll of Shawano. Bridge was played during the afternoon, first prize being awarded to Miss Stubbenvoll and second to Mrs. Rudd Smith. Lunch was served following the game of cards. Guests were Miss Gladys Borchardt, Mrs. Melvin Borchardt, Mrs. John W. Monsted, Jr., Miss Lele Jennings, Mrs. Rudd Smith and Miss Dorothy Stubbenvoll.
Masons of this city will be entertained at a smoker at the Masonic temple Thursday evening, Nov. 10. A 6:30 dinner will be served by a committee of members of the Eastern Star. Cards will feature the evening's entertainment. Messrs. in charge of the affair are William E. Viel, Frank Nelson, and Charles Atrams.

The regular monthly meeting of the Crispy Store club will be held at the store building following business hours Tuesday evening, Nov. 8. The committee in charge of entertainment includes Miss Amelia Ziemer, Miss Rose Edminister and David Vanderveer. Members of the refreshment committee are Miss Joan Scanlon, Miss Elsie Tandy and W. B. Viel.

The Women's Catholic Order of Foresters will meet in regular session at Parish hall Tuesday evening, Nov. 10. Following the regular routine business, a social hour will be held and lunch served. The women in charge are Mrs. Lona Eggers, Mrs. Louise Bodoth and Mrs. Myrtle Kleinbrook.

The members of the American Legion will hold one of the regular Saturday night dances at their new quarters in the Grand hotel building Saturday evening. Music will be furnished by the legion orchestra.

CITY TREES TRIMMED ALONG POWER LINES

Special to Post-Crescent
New London—City employees have finished trimming the trees along Beacon street which interfered with the city light wires. Work was begun on the south side of the avenue and continued westward.
A new guard rail has been erected at the turn of Oshkosh street at its intersection with W. Sprague street. Gravel has been placed on the shoulders and all holes and roughness were smoothed. The city crews have also erected a similar guard fence along the road which leads through the Badger mill yard. Both fences have been painted white and will be a decided aid to night driving.

CONDUCT FUNERAL RITES FOR IGNATIUS POLASKI

Special to Post-Crescent
New London—Funeral services for Ignatius Polaski, 54, who died at his home on Wisconsin street Wednesday evening, were conducted from Catholic parish hall at 10 o'clock Saturday morning by the Rev. Otto Kohe, pastor. Burial was August Minnabard.

Sunday school 9:30 a. m.
Services with preaching 10:30 a. m.
Holy days—evensong and preaching 8 o'clock.

ZION EVANGELICAL LUTHERAN, READFIELD

The twenty-fifth anniversary of the dedication of the Zion Evangelical Lutheran church of Readfield will be celebrated with an afternoon and evening service at the church Sunday, Nov. 6. Rev. O. Theobald, of Oshkosh, during whose pastorate the church was built, will open the celebration with German service at 2:30 p. m. The English service will be in charge of Rev. J. Dovidat of Oakfield, who was pastor of the Readfield church for 17 years. The choir will sing at both services. The affair will close with a chicken dinner to be served at 8 o'clock in the church basement, by ladies of the congregation.

NEW LONDON PERSONALS

New London—Miss Alice Freiburger who is attending Milwaukee Normal school, arrived home on Thursday and will spend several days here.
Mrs. Irma Zimmerman, of Clintonville, was a visitor at the home of Mrs. Carrie Hooton on Friday.
Miss Annie Cameron of Oshkosh, is a guest of her sister, Mrs. F. S. Dayton.

A. E. Vaughn left on Thursday morning for Dixon, Ill., his first stop on his motor trip to Starkeville, Miss., where he will assume the position of assistant superintendent of a milk condensary, owned by the Borden company.

Mr. and Mrs. F. E. Lowell and son Sebe Lowell left the city on Friday for Grand Lakes. They attended a Chicago concert on Friday evening, hearing John McCormack and on Saturday attended a football game at Notre Dame university. They will spend Sunday with their son Elsmere, a sophomore at the university, and will probably return home on Monday or Tuesday.

Mrs. Anna Dayton celebrated her eighty-sixth birthday anniversary on Thursday. Mrs. Dayton, who is the mother of the Rev. F. S. Dayton of this city, is in excellent health, often walking the distance from her home to the downtown district and back. She is able to read and to sew and is a great lover of the outdoors. She received a number of her friends during the day, and gifts of flowers and cards throughout the day.

Mr. and Mrs. F. M. Spellman and Mrs. Fred Webster and daughter Charlene left for Oshkosh and Mrs. Edward McGowan and daughter Helen, of Berkley, Calif., were visitors at the Henry McDaniel's home Thursday.

Mr. and Mrs. Len Neveiden spent Friday at Fond du Lac.

Dr. and Mrs. J. W. Monsted left Saturday morning for Madison where they will visit their daughter, who is taking post-graduate work at the University of Wisconsin. While there Dr. Monsted will attend the University.

Jacob Werner, Ike Peepke, Niese Barlow, William Garot and William Stern, burial took place in the local Catholic cemetery. Among those from out of town who attended the services were Mr. and Mrs. Frank Polaski and John John, of Clintonville, Mr. and Mrs. John Laux and son Leonard of Marion, and Mrs. C. J. Bell of Little Chute.

Jacob Werner, Ike Peepke, Niese Barlow, William Garot and William Stern, burial took place in the local Catholic cemetery. Among those from out of town who attended the services were Mr. and Mrs. Frank Polaski and John John, of Clintonville, Mr. and Mrs. John Laux and son Leonard of Marion, and Mrs. C. J. Bell of Little Chute.

LEGION WILL MOVE TO OTHER QUARTERS

Votes to Occupy Rooms at Grand Hotel—Expect Auxiliary to Act on Matter

New London—At special meeting of members of the Norris-Spencer club rooms on Thursday evening, it was decided that the rooms available at the Grand hotel will in future be the official rooms of the legion. A special meeting of the legion auxiliary will be called soon and a vote taken regarding the plans, and it is expected that the change will be made in quarters before the week is ended.

The new lodge rooms are well suited to the needs of the legion. The lounge room, which has a street entrance, may be used in connection with the larger room at times when a large assemblage is present. The room, once used as the hotel dining room, is fully as long and wide as the one formerly occupied. Its nearness to the hotel kitchens and the fact that, by a special arrangement, the equipment of the kitchen may be used for the serving of dinners makes the new quarters well suited to the needs of both the legion and its auxiliary. A small room at the rear is to be used for the safekeeping of regalia. It is expected that the business of moving and settling will be hurried through so that meetings may be held in the new rooms as soon as possible.

HORTONVILLE PEOPLE VISIT AT LOON LAKE

Hortonville—Mr. and Mrs. Elmer Falck and Mr. and Mrs. Charles Kreuger and family visited Sunday at Loon Lake.
Miss Ford of Canno Falls, Minn., is a guest this week at the home of Mr. and Mrs. James McMeekin.
Park McMeekin of Antigo, visited Saturday evening at the home of his parents, Mr. and Mrs. James McMeekin.

A son was born this week to Mr. and Mrs. Leo Berg of Appleton. Mrs. Berg was formerly Mary Gitter of Hortonville.

Matt Brill and son Eugene of Kaukauna spent Sunday at the home of Mr. and Mrs. Charles Sambs.

Mr. and Mrs. Oscar Gitter moved to New London Tuesday.

Charles Claut of New London, visited at the Charles Sambs home Sunday.

Cecilia Gitter was a New London caller Tuesday.

Mrs. Mary Hackett visited Friday in Appleton.

SCHOOLS TAKE PART IN NICHOLS FESTIVAL

Leeman—The schools in the vicinity of Leeman participated in the school festival at Nichols. Nov. 1. The following prizes were won by the schools of this region: third place, Pleasant View, teacher, Peter Jager, fourth place, Pleasant Hill, teacher, Miss Elsie Colson; fifth place, Sunnyside, teacher, Miss Evelyn Ahearn; sixth, Leeman, teacher, Miss Bernice Andrews; seventh, Oakland, teacher, Miss Vivian Grandy.

In the evening a program was given in the different schools taking part. Merle Allen returned last week from the state of Washington where he has been employed.

Miss Marjory Schroeder spent Thursday and Friday at her home here.

Carl Nelson was an Appleton business caller Tuesday.

Peter Jager, teacher at the Pleasant View school, attended the teachers convention at Milwaukee from Nov. 3 to 5.

Miss Elsie Sielaff of Shiocton, was a Leeman caller Tuesday.

E. A. Mills was a Green Bay caller this week.

Norman Furman, submitted to an operation for appendicitis at a local hospital this week.

ty of Wisconsin Fathers Day banquet Saturday evening.

The Rev. and Mrs. E. J. Phillips and children, Paul and Lucy, Jane, and Mrs. Hannah Phillips and Miss Florence Hoffman of Kewaunee, were Thursday and Friday guests at the home of Mr. and Mrs. Harvey Steinberg. The Rev. Phillips is pastor of the First Congregational church at Kewaunee.

Mr. and Mrs. Joe Bentz will spend the weekend at Goodman, where they will be guests of their Dr. Lloyd Bentz and wife.

Miss Dorothy Stubbenvoll will return to her home at Shawano Saturday after a week's visit at the home of her sister, Mrs. Herbert Ritchie.

Edgar G. Brown spent Friday and Saturday at Hiles, where he visited his parents, Mr. and Mrs. E. A. Brown.

Mrs. Eugene Spald of Stevens Point, was a guest at the Leonard Manske home Friday.

Julius Fuert, Alfred Pieper and George Jahnsman of this city, left the forepart of this week for Waupaca where they are working as carpenters on the new parochial school house which is being built under the direction of Elder J. Schoenrock, contractor and builder of this city. Mr. Schoenrock spent several days this week at Oshkosh where he has completed the construction of the Wisconsin Iron and Metal Co. Mr. Schoenrock will in the near future begin work on the new warehouse for the Oshkosh Hay and Milling Co. in that city.

John C. Lyon left Saturday morning for Chippewa Falls where he will visit at the home of his son, Howard Lyon and family. Mrs. John Lyon who has been spending the past two weeks there will return with him on Sunday.

The Rev. Otto Kohe will meet to Appleton Sunday where he will attend the dedication ceremony of the new St. Theresa Catholic church.

HOME ECONOMICS GROUP STARTED AT BEAR CREEK

Special to Post-Crescent

Bear Creek—Miss Edna Hoffmann of Madison, was in the village Wednesday. Miss Hoffmann is demonstrating the art of cooking to a home economics group here. The first all day meeting was held in the Methodist church parlors.

The state teachers' convention will be held at Milwaukee from Nov. 3 to 5, this year. An interesting program is planned by noted educators from various places. Teachers attending the convention from here are Miss Bertille Rice, Miss Carolyn Parsons, Miss Loretta Klefer and Principal J. B. Lockwood.

Mr. and Mrs. Neil McClellan of Milwaukee, and Mike Crain of Leomanon, visited at the Mrs. Margaret Lyons home Monday night.

The Rev. and Mrs. Jager of Big Falls, were callers at the William's home Tuesday.

Mr. and Mrs. Joseph Bazille of Hunting, and Mrs. Will Malloy of Lebanon, visited at the James Ruddy home Sunday.

Mr. and Mrs. P. H. Rohan of the town of Bear Creek attended a card party at the John Flanagan home in the town of Lebanon Sunday night.

Mr. and Mrs. Alvirus Walker of the town of Bear Creek, made a business trip to Oshkosh Saturday.

Mr. and Mrs. Will Madden and Mrs. Thomas Madden of the town of Lebanon, visited relatives in the village Tuesday.

Mrs. Anna Roden and son Francis of New London, and Mr. and Mrs. Victor Earl of Larson, visited at the Mrs. M. Lyons home Sunday night.

Mr. and Mrs. P. C. Batten and family and Miss Dorothy Drossart were at Clintonville Saturday evening.

Mr. and Mrs. P. H. Rohan attended the card party given at the Knights of Columbus hall at New London Wednesday night.

James and Mark Mullerkey of the town of Bear Creek, visited their sister, Mrs. Humphrey Sullivan at Pickets Sunday.

Mrs. M. A. Casey of Appleton, called at the William Lucia home in the town of Bear Creek Friday evening.

A son was born this week to Mr. and Mrs. Leo Berg of Appleton. Mrs. Berg was formerly Mary Gitter of Hortonville.

Mrs. P. H. Rohan attended a meeting of the Alpha club at the home of Mrs. M. J. Loughrigan in the town of Lebanon Sunday night.

The Rev. Father Alt was a visitor at Shawano Tuesday.

Mr. and Mrs. A. Van Alstine of the town of Lebanon, visited Mrs. M. Lyons Sunday night.

Miss Beatrice McGinn sept Sunday at the John McGinn and Joseph McGinn homes in the town of Deer Creek.

Mrs. William Meidam and daughter Miss Estella were Clintonville callers Wednesday.

P. H. Rohan of the town of Bear Creek, was a New London business caller Tuesday.

Miss Donya Lyons was a Clintonville caller Wednesday.

Gladys Meidam has returned to school after a three weeks' slege of small-pox.

Mr. and Mrs. L. W. Ringsmith of Milwaukee, were visitors at the Thomas Gough home Friday.

Mr. and Mrs. C. G. Balhorn were at Appleton Saturday afternoon.

Mrs. Sarah Ryan of Antigo, was a visitor at the T. B. Gough home Saturday.

Mr. and Mrs. C. G. Balhorn spent Sunday afternoon with Mr. and Mrs. Albert Jeske of Seymour.

Mr. and Mrs. P. J. Dempsey have become residents of this village and are occupying the residence they purchased some time ago.

Charles Gough, who injured his eye while playing with a sling shot, is reported to be regaining his sight. He is a patient at the Mercy hospital at Oshkosh.

Mr. and Mrs. C. O. Davis of Appleton, were here Thursday to attend the harvest festival supper by the women of the Methodist church.

Mrs. James Dempsey, and son, James, and Misses Mae and Kathryn Dempsey visited relatives at Monico Sunday.

A son, Henry Thomas, was born to Mr. and Mrs. Henry Flanagan last week.

NINE DRY LAW CASES ON COURT CALENDAR

Six Men Face Abandonment Charges in Waupaca Circuit Court

Waupaca—The following criminal cases are to be tried in circuit court. In sessions beginning Monday, Nov. 7, Judge Byron B. Park will preside.

State vs. Wisconsin vs. William Loose abandonment. District attorney L. D. Smith; Loose and Tapolinski for defendant.

WAUPACA-CO ASYLUM VALUED AT \$263,545, YEARLY REPORT SAYS

Operating Expenses for Past Year \$4,541; 145 Patients at Institution

Special to Post-Crescent
Waupaca—The trustees of the Waupaca-co asylum have issued the twenty-fifth annual report. The asylum properties are valued at \$263,545. The institution has accounts receivable, which makes the total valuation \$283,545.71. The operating expenses for the year were \$4,541.33.

Revenue from all sources amounted to \$36,976.03. The asylum has 145 patients of whom 83 are men and 62 are women, coming from 23 counties. During the year the institution lost six patients by death, seven by leave of absence and one transferred.

Mrs. D. C. Hayward, Mrs. George Classon and Mrs. John Backus gave a card party Tuesday evening at the American Legion hall, for the benefit of St. Peter Catholic church. Bridge and five hundred were played. About sixty were in attendance. The winners at bridge were Mrs. William Martin of Waupaca, and George T. Classon of Waupaca. Those winning at five hundred were Mrs. Albert Ankum and John Backus, both of Waupaca.

Among the out-of-town guests were Attorney and Mrs. John C. Hart, and C. Judge and Mrs. William Martin of Waupaca.

The members of the Shakespeare club held the first meeting of their thirty-fourth season Monday evening at the home of Principal and Mrs. George Van Hekdonk. The officers elected for the ensuing year were: President, Charles Peterson; vice president, Mrs. Mary Bennett; secretary, Mrs. Harold Clarke; treasurer, A. L. Hutchinson. The next meeting will be Monday evening, Nov. 7, at the home of Miss Emma Fendon. "The Merry Wives of Windsor" will be read.

The members of the Iowa Women's club entertained the members of the Waupaca Women's club at the Methodist church parlors Monday afternoon. Mrs. Edward Hammett, president of the Wisconsin Federation of Women's clubs was the speaker.

Her talk was on the various departments of club work in their relation to the state federation. The emphasis of the work of the educational fund department and the work regarding the Helen Farnsworth fund was given.

Miss Signe Moller, rendered a vocal solo, a piano solo was given by Miss Lois Gunderson. Following the program, the Iowa club served refreshments.

State vs. Sylvester La Violette, three counts assault and battery. L. D. Smith, district attorney; O. L. Olen, attorney for defendant.

The Chain O' Lakes, expect to leave soon for their winter home in Florida.

Leonard Pitt has purchased the William Morey farm near Cabtown and will take possession immediately.

LEGAL NOTICE

NOTICE OF HEARING OF APPEAL

Notice is hereby given that at a regular meeting of the Board of Appeals, established under section 18, of Article 4, of Ordinance No. 209, known as the "Zoning Ordinance," held on Monday, November 6, 1927, at 7:30 o'clock in the evening, will be heard and considered the appeal of: Herman Peotter, George C. Limbert and John Heintzsch Against Permit issued by the Board of Appeals, for a barn and repair shop, from the ruling of the Building Inspector in refusing to grant a permit for a building, for the erection of a building, or occupancy of a non-conforming building on, or for the use of the property known and described as follows:

322 W. College Ave. Lot 23 Block 43, Plat 1st of all the city of Appleton.

Notice is further given that said meeting is open to all persons and any other person interested may appear and be heard for or against the granting of the appeal.

By JOHN W. WEILAND, Secretary.

Announcing

An Organization of Believers in Appleton

THE Community Builders is an organization sanctioned by the Appleton Chamber of Commerce. It consists of business and professional men of the city who have subscribed to a fund to carry on an extensive campaign advertising the advantages to be found in Appleton and the immediate vicinity—advantages, the proper use of which make a prosperous and well balanced community. Members of the Community Builders will be identified by the above insignia placed on their store or office windows and in their advertising.

It has been said that Appleton is the modern counterpart of the prophet in his own home—that the world knows more about its many splendid advantages and possibilities than do its own citizens and the people generally in this community.

With this in mind it is the purpose of the Community Builders to set forth the industrial, economic, geographical, climatic and civic advantages of this community in an extensive advertising campaign to cover a period of at least one year; to show how a diversity of industry, a splendid environment and a contented and happy citizenry have brought uniform prosperity to this section of the country year in and year out.

This Campaign by the  *Look for the Emblem*
